PRICE FOUR CENTS.

Kiwanis Kapers Promises Pleasure for Record Crowds

Anticipated Anniversaries Ready to Delight Public with Novel Entertainment for Benefit of Needy and Underprivileged Children of Ulster County. Names Tell of Children's Needs.

When that magic word "Curtain" sounded tonight at 8:15 at the Broadway Theatre, where the Kiwanis Club of this city assisted by a group of the most talented of the amateur set of the community will be the first of three performances. Kiwanis Kapers for the benefit of the needy and underprivileged children of Ulster county, behind it will be one hundred and twenty-five amateurs fit to do one of the best of its kind ever done in Kingston and before it a capacity house that will not only have their expectations fulfilled, but will also be one of the most pleasant surprises of their lives. This is the incident assertion of an observer who viewed the final rehearsal of Monday afternoon and who also was in touch with the box office.

An augmented orchestra participating for the first time in the rehearsals Sunday afternoon and the rehearsal on the stage at the Broadway theatre, where the performances are to be given, put the show in a new light. The acoustics of the theatre are almost perfect, even with the stage setting and scenery set in place, and there need be no fear that the lighter voices will not carry to the far ends of the balcony.

Not Like Amateurs. The glamour and glitter of a real stage and real footlights seemed to have inspired the various members of the cast with a vim and dash that has completely effaced every trace of an amateur performance. The Fisher, Vincent Van Bramer, Howard Kitch, the Misses Cassin, Richards, Gleason, Finn, and the girls to whom are the dancing stars attained a degree of pleasing performance that entirely eclipsed their efforts in the hall rehearsals. To the two of the big scenes and the twelve principal sets any outstanding feature would be a difficult matter.

Some Big Features. The Bathing Beauty Contest at the performance this evening promises a laughing surprise well worth participation. Little Nicholas Murphy, as a New York newsboy singing a unique adaptation of "Mary O" will "go over big." John Fisher as the dancing star, in the appealing "Here Comes De Show-bow," will do dancing stunts on his head, hands and feet that will bring down the house. "Leave It To Levi" will reveal "Bill" Newkirk as a convincing cop and "Jimmie" Winters as an imitative comedian of first rank. Delightful and cute is a justifiable designation of a little number, in which the Misses Mildred Messinger and Jessie Govey sing an appealing story of two little birds, while Marie Lockwood and Lillian Werner will do the dancing as only accomplished little tots can.

School Nurses' Approve. An interesting item in connection with this effort of the Kiwanians is a letter to the President of the Kiwanis Club as follows:

September 16, 1927.
Mr. Julius Gifford, President of The Kiwanis Club, Kingston, N. Y.
My dear Dr. Gifford:
"All success to Kiwanis Kapers" is the hearty wish of the school nurses of Kingston. Two years ago we received aid from your club for the undernourished children of our schools and we cannot tell you how much good was accomplished or how much we appreciate it. We understood that your funds last year were not sufficient to carry on this work and we are happy now to learn that you are putting on Kiwanis Kapers so that the children may again have the benefit of your generosity. Several schools last year were without milk for the underprivileged and undernourished children. You would be surprised at the number of children who come to school without breakfast and we find that this mid-morning milk feeding assists greatly in their general condition. We realize that your club members and friends are giving a tremendous amount of their time and effort in this production and we hope the people of the city and vicinity will back it to the hilt for the sake of the children.
Yours for the children,
MABEL E. MERICLE, R. N.

CHRISTIANA INJURED
ARM IN AUTO CRASH.
Marshall Christiana of Herkonia sustained an injured left arm this morning when the Ford truck he was driving was in collision with Maxwell coupe driven by Charles Lamphere of Main street. Extension of the cars came together on Broadway at Liberty street. Both cars were somewhat damaged.

Enter Normal School.
The Misses Margaret Falvey, model Flynn and Anna Shields, graduates of Kingston High School, class of '27, have entered the fall term of New Paltz Normal.

Plans Made for Victory Ball

Plans for the forthcoming Victory Ball, to be held by Kingston Post, No. 150, American Legion, at the Kingston armory on Armistice night, November 11, were announced by the Victory Ball committee at the meeting of Kingston Post last Friday evening.

In keeping with the policy already established by the Post, the committee has endeavored to secure the best possible entertainment and dance music. As a result of their selections, this year's offering will be something unique, which will doubtless appeal to all lovers of high class entertainment and dance music.

Arrangements have been made with the National Broadcasting Company to furnish both the entertainment talent and dance music. The entertainment will be presented in the form of a radio show, lasting an hour and a half. Phillips Carlin, WEAF, will act as master of ceremonies, introducing the various artists and contributing to the entertainment with his attractive personality. Other artists will be Milton J. Cross, WJZ announcer, as tenor soloist; Vaughn de Leath, comedienne and impersonator; Torre and Biviano, violin and accordion team; "Happy" Harry Hayden, musician, comedian and magician; and Olga Serlis, leader of the Parnassus Trio, pianist and accompanist. The entertainment will be presented before a microphone in exactly the same manner as is done in a broadcast studio.

Following the entertainment, dance music will be furnished by the WEAF Vagabonds, under the direction of Don Marcotte.

The Legion is confident that the program which they offer this year will result in an attendance greater than any previous Victory Ball.

Police Cared For Little Boy

Neighbors Saturday evening called up the police department and stated that the four year old son of Mr. and Mrs. Brink, who reside at No. 113 Newkirk avenue, was being allowed to run the streets unaccompanied. Officer Hess was assigned to the case and found that the parents were not at home. A neighbor washed the little boy's face and hands and gave him his supper before the officer took the lad to No. 49 Cedar street, where it was said the mother was stopping. The officer, however, was unable to locate either mother or father of the boy and arrangements were made to care for the boy at St. Anne's Convent on Broadway. Today the police expected to take the matter up with Miss Dorems, State Charities' Aid Agent here, to make arrangements for caring for the little boy.

Body of Isadora Duncan Cremated

Paris, Sept. 19 (AP).—In conformity with one of her last expressed wishes a Bach concerto was played today while the body of Isadora Duncan was cremated.

Hundreds of friends and admirers of the classic dancer, who was killed at Nice Wednesday, stood in reverence to her memory during the simple ceremony in Pere Lachaise cemetery. Many of them had followed the funeral cortege bareheaded from her home to the cemetery.

DYNAMITE HOME OF ANTI-VICE CAMPAIGNER

Old Forge, Pa., Sept. 19 (AP).—Reprisal for his anti-vice crusade was believed by the authorities today to have been the motive for the dynamiting yesterday of the home of Burgess Frank Berger.

Investigation had convinced them, officials said, that the local underworld had accepted the burgess' challenge of last week when, at a meeting of council, he summoned the entire police force to the town hall and told them he would give them until Saturday to "clean up" the town.

Six sticks of dynamite were said to have been set off on the front porch of the Berger home. The blast wrecked the building and damaged other nearby structures. Dr. and Mrs. Berger, who were sleeping in a room near the roof of the porch, had a narrow escape.

His Auto Tools Stolen.
Saturday evening Paul Koppen of No. 62 Grant street reported to the police that he parked his car at the Kingston Off Company station on Clinton avenue while he attended Reader's Kingston Theatre, and that while he was in the theatre someone stripped his car of the tools carried and also took a spare tire.

15 Veterans of 300 Marooned

Old 20th Attend Annual Reunion

Famous Ulster County Regiment Has Thirty-one Survivors, of Whom 15 Answered Roll Call at Reunion in Kingston Saturday—Veteran Swap Reminiscences.

Of the young men who marched away some sixty-six years ago to answer the call of their country there still remain quite a number who recall the stirring days of '61 to '65. Ulster county's own regiment, the Old 20th Volunteers, can still boast of 31 members scattered throughout the country. Many of these men who were mere youths when they marched away are still hale and hearty while others who were in early manhood during the Civil War are now well past the three score and ten mark, and many have passed the four score mark.

At the annual reunion of the Old 20th N. Y. Volunteers held Saturday at the Clinton Avenue M. E. Church Hall, fifteen of the 31 surviving members answered "here," when Secretary Newton H. Fessenden called the roll. This is a remarkable showing when it is considered that many of the men came from a long distance to attend the reunion. Ira Porter of Duryea, Pa., however, holds the record for long distance, with John W. Haight of Coester, N. J., a close second.

With all of the enthusiasm of younger men the honored veterans began to arrive early and renew acquaintances. The long years which have passed since they marched away have served to dim the recollection of many of the members as to which company the various members had belonged to and the greeting was frequently an introduction by name and company.

Veterans Answered "Here".

The business meeting which preceded the dinner was brief and businesslike. Secretary Newton H. Fessenden called the roll and the following veterans answered "Here": Virgil Britt, Port Ewen; Augustus Cole, Ulster Park; John W. Haight, Coester, N. J.; Stephen Humphrey, Port Ewen; George Markle, Albany; M. Matern, Poughkeepsie; E. J. Nichols, Kingston; George Pells, Kingston; James Pierce, Kingston; Silas Perrine, Port Ewen; Ira Porter, Duryea, Pa.; F. A. Raenhardt, Kingston; Joseph Switzer, Poughkeepsie; John J. Van Keuren, Rye; Andrew White, Bushnellville; John Wood, Cortkill.

Answered Last Roll Call.

Those who had answered the last roll call during the past year since the last reunion were: George J. Dunn, Connelly; Daniel McMichael, Kingston; Cyrus Slicker, Kingston; J. McNeil, Corning; and Abram See of Poughkeepsie. This leaves thirty-one members of the Old 20th still alive.

At the annual reunion last year 14 were present and 19 were absent. The attendance this year was two better than last year.

Members Send Regrets.

Regrets were received from several of the members who through illness or long distance were unable to get to the reunion. Among those who sent their regrets were Green L. Davis of Stone Ridge; Charles D. Frazer, Yonkers; E. B. Vail, Brooklyn; Thomas Terwilliger of Ellenville.

The invocation was by a member of the regiment, George Markle of Albany.

Major Pierce at the Drums.

During the reunion music was furnished by Malsenheid's orchestra and Major James Pierce's musicians with James himself at the drums. The old time melodies as well as some of the modern ones were played by this combined orchestra. Major Pierce being of the Civil War and Malsenheid being a veteran of the World War.

A motion to continue the reunions and again hold a meeting on Antietam day next year was unanimously adopted.

Officers Re-elected.

The present officers were continued for another year as follows: President, Virgil Britt; vice president, Augustus Cole; secretary, N. H. Fessenden; treasurer, Major Alfred Tanner.

Mrs. Loomis Makes Report.

Mrs. Sarah J. Loomis of Brooklyn, who had returned from the National Encampment of the G. A. R. at Grand Rapids, Mich., in order to attend the Old 20th reunion was present and greeted the members, telling of her trip to the encampment and of her visit to the Soldiers and Sailors Home in Michigan.

Mrs. Loomis, who was last year appointed a committee to look into the design of a suitable button or badge for the Old 20th Association, reported that it was decided not to take any action at the present time.

Honorary Members and Guests.

The call of the roll of honorary members and guests of the association showed several members of other regiments in attendance at the reunion, members of regiments who now reside in this community and who are unable to attend reunions of their own outfit. A large number of members were present from Poughkeepsie and Dutchess county.

Dinner and Campfire.

Following the business meeting dinner was served by the Ladies' Auxiliary of the Sons of Veterans. The Rev. Dr. A. S. Cole presided as toastmaster and called on Mayor Ed-

Without Adequate Food Supplies and Unable to Communicate With the Outside World—Help Is on the Way.

Winnipeg, Man., Sept. 19 (AP).—Without adequate food supplies and unable to communicate with the outside world, between 300 and 350 persons were marooned today at Grand Beach and Victoria Beach on the eastern shore of Lake Winnipeg.

A violent gale which swept the lake throughout Saturday whipped the water into mountainous waves at a neck of a peninsula through which twenty miles of Canadian National Railway trackage is laid. Today this low lying area was submerged and the stranded people have been unable to go on the lake in the small boats available. The victims of the storm were on a special excursion to close their summer cottages at the two beaches.

A special train has been dispatched to Grand Beach with food supplies, and wrecking crews will start repair work on the inundated road as soon as the water recedes. If rail communication cannot be quickly established with the marooned excursionists, a lake steamer will be dispatched to the scene.

On Wednesday, five minute stops are to be made at Billings and Missoula, Mont.

Sues for Damages To Cow by Auto

Greenfield Farmer Sues Owners of Car and Their Son Who Was Driving It—Dispute Over Question of Negligence.

County court convened at 10 o'clock this morning at which time a negligence action was taken up for trial. The action is an appeal from justice's court and is a negligence action brought by Morris Steinhorn of Greenfield, town of Wawarsing, against Oscar Grand, Mary Grand and their son, Arthur Grand. The Grands reside in the town of Wawarsing.

The present case is the second one of a similar nature from the town of Wawarsing to be tried at this term of county court. The other case was an action where a dog was killed by an automobile and this action is where a cow was injured by an automobile. Mr. Steinhorn, who is a cattle dealer, had three of his men driving a herd of cows along the Greenfield road. The car of Mr. and Mrs. Grand and driven by their son ran into the herd, according to the story told by the plaintiff. One cow was injured severely when it suffered a broken leg and two others in the herd were injured. Mr. Steinhorn asks for \$200 damages.

Defendants Deny Liability.

The defendants claim they are not responsible, that the cows were not being properly driven along the road and that Mr. and Mrs. Grand are not responsible for the acts of the son, even though he was negligent in operating the automobile. His technical defense is put up in addition to a denial that the car was being operated in a negligent manner.

Plaintiff claims the car was driven at from 40 to 50 miles an hour in a negligent manner and that the cows were driven along in a proper manner with three herdsmen on the job. Another near the center. He claims the car came over a hill at a fast clip and when the brakes were applied the car turned sideways and crashed into the herd. Before the car could be stopped it had passed through the herd.

Unable to Settle Case.

Mr. Steinhorn testified that he had attempted to settle the damages out of court but he was unable to do so because after he had agreed to accept two of the Grand cows in lieu of money damages he had been asked to sign an agreement relieving the Grands of responsibility for injuries which Harry Gruver, one of the herdsmen suffered. Mr. Steinhorn said he had refused to sign because he could not enter into an agreement with the Grands for Gruver who had been injured.

The accident happened on October 2, 1926. One of the herdsmen said young Grand told him after the accident that the car was being taken to the village of Ellenville to have the brakes fixed and that the condition of the brakes had prevented his stopping when he saw the herd of cows. LeRoy Lounsbury appears for the plaintiff and Morris Kanfer for the defendant.

The case will be concluded this afternoon.

Blimp Over Mountain Section.

A large dirigible or blimp was seen last Thursday flying over the mountain section. The big bag was flying high and the hum of the motors was just discernible. Green and red running lights, however, were seen on several occasions lately flying over the mountains, evidently on a training cruise from Lakehurst where the lighter than air ships are housed.

Mr. Demsey, George Markle, Mrs. Loomis and the Rev. W. J. Nelson, with the program of music was continued during the serving of the dinner and at the campfire which followed.

25 Planes Start Doctors Favor

On Cross Country Flight to Spokane

Have Started at Daybreak—Winner Will Receive \$5,000—Philadelphia Plane Leads at Bellefonte.

Roosevelt Field, N. Y., Sept. 19 (AP).—Twenty-five light commercial planes took off on the first leg of a cross country flight to Spokane, Washington, this morning. The start was made at 6:01 eastern standard time, a. m., by 6:02 eastern standard time, the last starter had left.

A total distance of 2,350 miles in advance of the racers whose planes were designed officially as class H, of a type capable of carrying one passenger and a pilot. Prizes to be awarded the winners are: First, \$5,000; second, \$3,000; third, \$1,000; fourth, \$500 and fifth, \$250.

Stop Tonight at Chicago.

The race schedule called for an overnight stop tonight at Chicago and another tomorrow night at Glenview, Ill. Compulsory five minute stops were to be made at the following intermediate points today: Bellefonte, Pa.; Cleveland and Brian, Ohio. Tomorrow after leaving Chicago, the planes are required to make five minute stops at St. Paul, Fargo, N. D., and Bismarck, N. D.

On Wednesday, five minute stops are to be made at Billings and Missoula, Mont.

Philadelphia Plane Leads.

Bellefonte, Pa., Sept. 19 (AP).—The Picastron Picastron, piloted by A. M. Banks, Philadelphia, was the first of the twenty-five light commercial planes in the cross country aerial derby to complete the first leg of its journey today. It arrived here at 9:27. One minute and a half later the Waco 10, piloted by C. W. Meyers, alighted at the field here.

Pilot Meyers took off at 9:36 to take the lead from Pilot Banks. Both planes took on gasoline and oil after making perfect landings.

The third plane to arrive was Pilot Leslie Miller's Eagle Rock which arrived at 9:39.

Pilot Meyers, the second arrival, evidently lost his bearings en route from Roosevelt Field as he came to the flying field from the west instead of the east.

The Eagle Rock took off at 9:47, winging its way westward in second place.

Withdraws from Race.

Roosevelt Field, N. Y., Sept. 19 (AP).—Weather conditions over the Pennsylvania mountains were such as to make flying entirely unfeasible said R. W. Cantwell, of Oklahoma City, withdrawing from the cross country air race to Spokane today.

Cantwell was among 25 light commercial planes to take off on the first leg of the race this morning but landed at Curtiss Field, a mile and a quarter from here, because of "a low ceiling."

Paris Host to Legion Auxiliary

Paris, Sept. 19 (AP).—France thanked the women of America at first hand today for their sacrifices and devotion to the allied war cause.

At the opening session of the American Legion auxiliary, General Gouraud, representing the French army, and Andre Tardeau, representing the government, both expressed the gratitude and appreciation of their country for the war record of American womanhood.

Every seat was filled when the auxiliary session opened in the banquet room of the Continental Hotel and there were many spectators standing.

The official welcome was given to the women delegates by Mrs. Arthur Kipping, president of the Paris Auxiliary post.

Mrs. Adeline W. Macaulay, national president of the legion auxiliary, replied to the greetings.

Mexican R. R. Center Submerged

Mexico City, Sept. 19 (AP).—Submerged under eight feet of water, Acambaro, important railroad center in the state of Guanajuato, has been isolated from the rest of Mexico since yesterday morning.

Rushing waters from the flooded Lerma river carried down together telephone posts and railway communication.

Farm Prices Move Upward

Gradual Increase in Value of Products Since April—Corn, Cotton, and Apples Improve Most.

Itasca, N. Y., Sept. 19.—Commenting on business conditions and prices of farm commodities in New York state and the United States, Dr. G. F. Warren at the state college of agriculture here says, for the country as a whole, farm prices have advanced gradually since last April when the index number was 130, until now they are 135 per cent of the prewar average. The most striking changes are the advance in the prices of corn, cotton and apples, and the decline in the prices of potatoes.

Milk prices in New York state are higher now than they were a year ago. During the three months of May, June and July, the index number of the price of 3.7 per cent milk at Utica averaged 92 per cent above prewar whereas it averaged only 84 per cent a year ago.

The apple crop in New York is short and the quality is poor. Farmers who have a fair crop will get good prices, he says.

Feeds Advance.
In regard to feed prices, he says, the prices of nearly all feeds rose during August but advances were not so large as usual at that time of the year. Corn was planted late and it has grown slowly. Future prices for corn have risen rapidly and have fluctuated violently. The size of the crop depends on how long frost holds off.

Employment is fairly satisfactory, Dr. Warren thinks. There is little unemployment, but jobs are harder to get. This is, no doubt, an incentive for more efficient production.

The general price level registers the first advance in ten months. It now stands at 147 which is one point above the June level.

A Kingston flapper asked her sweetie if he was familiar with the "Barber of Seville". He answered, "No, I shave myself."

She was wearing a bridge gown that evening, but I can't see why it was called a bridge gown, for in bridge you are only supposed to show your hand.

He whose head is easily swelled often finds himself in tight places.

The Naked Truth.
A rolling stone gathers no moss. They repeat this with unctious and flaunt it.
But tell me, can you come across With a reason why rolling stones want it?

Politics is on vacation but considerable bait is being dug.

A subscriber is a person who wants newspapers to be absolutely independent on all subjects except that in which he is particularly interested.

When the heart declines to grow old along with the rest of the physique, it's apt to lead to a lot of darn foolishness.

When it comes to making yourself unpopular there hasn't been anything discovered that beats telling the truth all the time.

Some people are like price lists—you have to know what the discount is on what they say.

A Flaw in the Adage.
A bird in the hand is worth two in the bush.
They say, but I doubt it, my word! A carrion crow I'd reject with a push. So you see much depends on the bird.

The correct way to eat parsnips is to feed them to the cow, and then eat the cow.

One thing about sunflowers: it takes only one of them to make a bouquet.

The girls are taking courses in home management, but husband management they understand without instructions.

What difference does it make what the calendar says so long as one's arteries are still fairly young?

When a girl warms up to a fellow he thinks he has her "knocked cold".

Add meaningful smiles: As busy as a bald-headed man in fly time.

The girls are trying to figure how they can reduce flesh, but Dad will say that first they would better try to reduce their bills.

In early youth we are taught to "love one another." Later we learn to love one—and another.

Yet if all lived as wisely as the doctors advise, the doctors would starve to death.

So many women in fishing for a husband made the mistake of trying to hurry the sucker into biting.

Metusalem probably lived to a ripe age just to spite some girl who married him for his money.

There, now Martha, you've gone

and ordered sewer seeds that take two years to bloom.
"You mind your own business, Hiram; this is last year's catalogue."

The frequent escapes of prisoners from penal institutions indicates that those in charge of our jails are not making them sufficiently attractive. (Copyright, Office Cat Syndicate.)

Kisses Were Sacred
Among old laws against kissing those of Iceland appear to have been the most severe. Banishment was the penalty laid down for kissing another man's wife, either with or without her consent, and the same punishment was enforced for kissing an unmarried woman against her will.

Remember This! "SALADA" TEA

stands unequalled for real goodness.

Joe Humphreys says: "Holbrook Blinn is right—Luckies are certainly good"

Noted sports announcer, talking to his son, George Cohan Humphreys, at their home in Fairhaven, New Jersey, recommends Lucky Strikes.

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

"It's toasted"

No Throat Irritation - No Cough.

Holbrook Blinn, Noted Stage Star, writes:

"Each performance brings with it its attendant nervousness and I relish the opportunity for a soothing smoke while playing. During the course of 'The Play's the Thing' I am called on to smoke at frequent intervals. It is always a Lucky Strike. I know from many years' use of this cigarette that my throat is constantly protected and that it will give me the greatest enjoyment."

Holbrook Blinn

WHITE HOUSE COFFEE

THE fragrance you smell around a roasting oven is yours to taste in White House Coffee—round, full-bodied, delicious. The special White House process of roasting captures the elusive coffee aroma—roasts it into the bean as flavor—preserves it for your steaming cup. Ask for White House Coffee and enjoy that good coffee taste every time.

The Flavor is Roasted In!

Dice, Fighters
And Other Things

Police raided crap game off Converse street Sunday afternoon, capturing seven and the "kitty" containing \$4.75—other cases in Police Court.

Sunday afternoon the police department received a complaint regarding a crap game in progress in a building off Converse street and a raid was staged which netted seven prisoners, all negroes. The "kitty" containing \$4.75 was also seized. Some of the crap shooters, however, escaped through one of the windows in the building. The seven caught were George Fitzgerald, Daniel Van Dyke, Albert Snyder, Harry Souser, Aaron Fitzgerald, Walter Dawson and Grant Fitzgerald.

This morning in police court, before Judge Shufeldt all seven entered pleas of guilty to the charge and were discharged with suspended sentences.

Arrested For Fighting.
Peter Malin of Port Ewen and Edward Norton of Post street were arrested Saturday evening for staging a fist fight on Chambers street. The fight was broken up by Officer Schick. This morning both men entered pleas of guilty and were discharged with suspended sentences.

Each Arrested Other.
Archie Holt of Red Hook and Esidore Feldstein of this city arrested each other on charges of reckless driving following a collision between their cars over the week end. In police court this morning both pleaded not guilty and the hearing in both cases was adjourned to next week.

Union College
Starts New Year

Schenectady, N. Y., Sept. 19 (AP).—The 134th academic year of Union College began today with an enrollment of 850 students and a freshman class of 297 members. Both figures are the highest in the history of the institution.

In an address to the students at the opening exercises, President Charles Alexander Richmond declared that "knowledge is not education."

"There is no knowledge with education, but nothing is more common than knowledge without education. Knowledge is to education what words are to speech. I am not belittling the value of knowledge, nor the necessity of it. What I want to do is to impress you with the supreme importance of making the best possible use of the knowledge you have acquired both for yourself and for the generation in which your lot is cast."

"For ages we have been accustomed to say that knowledge is power. It is more just to say that in knowledge is power. Knowledge is potential. It becomes power when it is put into exercise."

"To fit you all to live your life magnanimously—that is to be educated."

CHAMBER OF COMMERCE
WARNED AGAINST HANNA

Louis S. Coe, secretary of the Kingston Chamber of Commerce, has received a telegram stating that H. H. Hanna, representing Kilgor Company of America, claiming a plant at Phoenix, Arizona, with laboratory at Pomona, California, is trying to interest chambers in a local branch. It further states that he carries an option for a plant at Trenton, N. J., signed by former Governor Edward C. Stokes and a passbook on Mechanics National Bank, Trenton. He claims dealings with Westinghouse and General Electric.

Investigation at Phoenix, Lompoc and elsewhere had proven negative, regarding both Hanna and company, according to the telegram.

Description is given as follows: Thirty-three years, 160 pounds, five feet ten inches, light complexion, sporty dresser and typically western breezy talker.

It is suggested all members be warned, particularly banks, automobile dealers, real estate men and police.

PAGEANT TO FEATURE
BIGELOW GATHERING

The annual gathering will be held at the Bigelow Homestead, Maiden-Hudson, Saturday, October 1, at noon. There will be a musical program and addresses. The children of the community will honor this year of sesquicentennial significance by a pageant reminiscent of Saratoga in 1777 and Lindbergh at Le Bourget, France, in 1927. Refreshments will be served.

The program, which is in charge of Mrs. Agnes Ellinger Dain, will include renditions on the harp by Melville Clark of Syracuse, who is famous as a harpist. The Rev. William Elliot Griffith, missionary to Japan in 1870 and well known to historians by his work, "The Mikado's Empire," will give an address.

Los Angeles Millionaire Dies.
Los Angeles, Sept. 19 (AP).—J. Ross Clark, 67, millionaire business man and builder of the Los Angeles and Salt Lake Railroad, died at his home here last night. With his brother, the late Senator William A. Clark, of Montana, he was identified with numerous development projects in the west. Mr. Clark was born in Connelisville, Pa.

Catholic Women to Meet.
The seventh annual convention of the National Council of Catholic Women will be held at the Marlborough Hotel, Washington, D. C., from September 25 to 28.

14,000 March
In Legion Parade

Red, White and Blue Flowers Placed Around Grave of Unknown Soldier—Third Foreign Body to March Under Arc de Triomphe.

Paris, Sept. 19 (AP).—Fourteen thousand men of the American Legion who fought for France and many of their women folk today marched in a great parade under the Arc de Triomphe and in homage to the Unknown Soldier placed red, white and blue flowers around his grave.

It was the third time in French history that the Arc de Triomphe has been opened to a foreign body. The flowers were laid in reverence and formed a fragrant wall around and virtually covering the Unknown's tomb.

The procession of Americans, returning in peace to the streets where they had once marched in the grim days of war, started from the Place D'Isle, through the Arc de Triomphe and then down the Champs Elysees to the Place de la Concorde where the marchers were reviewed by France's two greatest soldiers, Marshals Foch and Joffre, and America's war leader, General John J. Pershing.

The veterans' marching order was splendid, bringing marked approval from the immense crowd, happy and enthusiastic, which lined Paris' beautiful avenues.

The crowds were late in gathering to see the parade because of rain, and threatening weather, but as the parade proceeded, the weather improved and roofs, sidewalks, windows and every available point of vantage were occupied.

The Florida contingent of legionnaires received a great hand, but it remained to the Louisiana group to send the French spectators into an ecstasy of enthusiasm.

The youthful appearance of the American war veterans appealed strongly to the French population. "They do not seem to have grown a bit older," was the comment heard several times.

For the first time since the great victory parade of 1919, the heavy chains which bar the entrance to the Arc de Triomphe were removed to permit the legionnaires to march through. The Americans presented an impressive picture as, bareheaded and with serious set faces, they dropped their tiny flowers upon the tomb of the Unknown.

A deep and heavy silence ruled for fully three minutes as the first delegations passed, all the bands having ceased playing as they reached the historic monument. Then suddenly applause and cheers broke from the thousands packing the square. They had seen Marshal Joffre and General Pershing and National Commander Savage stand at salute near the tomb, and then enter their automobile to join the procession.

SCREEN-COMEDIAN MISSING
AFTER SUIT IS FILED.

Los Angeles, Sept. 19 (AP).—Motion picture officials today were checking a report that Wallace Beery, screen comedian, was "missing," which was circulated here after the filing of a \$1,000,000 suit against him by Juanita Montalva, 19 year old dancer and film actress, charging that he attacked her while she was a guest in his home and that he is the father of her expected child.

Studio officers discounted the report saying Beery was on location in an inaccessible place in the high Sierra range and that it would take some time to get into communication with him.

Miss Montalva's suit alleges the motion picture actor attacked her once while she was a guest of Mrs. Beery in their Hollywood home last December, and that a second attack took place when the actor drove her home in his automobile.

LON CHANEY IN "MOCKERY"
AT READE'S TONIGHT

Lon Chaney playing the role of a half savage Russian peasant will be featured in the cinema attraction, "Mockery" at Reade's Kingston theatre tonight. The role has been said to be the most vivid and dramatic of the star's career.

Prince Ali, who will give demonstrations of psychic power, will be the attraction of the Keith-Albee vaudeville program in conjunction with "Mockery."

St. John's Women To Meet.

There will be an all-day sewing meeting of the women of St. John's parish held at the parish house on Albany avenue on Wednesday of this week, beginning at 10 o'clock. The women of the entire parish are urged to be present and to bring their lunches with them. At 3:30 o'clock on the same day, and while the women of the parish are present, an important meeting of the Parish Aid Society will also be held. It being the regular meeting of the society.

Stolen Car Recovered.

A Henry of Esopus reported to the police Sunday evening that his Chevrolet coupe had been stolen from Liberty street and Clinton avenue, where he had parked it. Later the police found the car on Center street. Some one had evidently taken the car for a brief ride.

C. D. of A. Minstrel Cast Meeting.

A very important meeting of the cast to play in the Catholic Daughters of America minstrel show will be held tonight at 9 o'clock in the Knights of Columbus Hall, corner of Broadway and Andrew street. Every member of the cast is expected to be present.

Holy Cross Card Party.

The ladies of Holy Cross parish will hold a card party Tuesday at 2:30 promptly in the parish house. Prizes will be awarded and refreshments served. The public is cordially invited.

No Word from
Jensen and Leo

Eller Who Won Second Place in Dole Air Race Not Heard From Since He Left San Diego for New York With a Lion as Passenger.

Los Angeles, Sept. 19 (AP).—The monoplane of Martin Jensen, of Dole flight fame, transporting the motion picture lion Leo on a non-stop flight from San Diego to New York, still was unaccounted for today by its sponsors, the Metro-Goldwyn-Mayer Motion Picture Company, two days and a half after it left the coast city.

Jensen was reported by the company as having been seen last before noon Friday, less than two hours after the hopoff. He had expected to arrive in New York at noon Saturday. The company reported that he was seen passing of Jacumbra, in the San Bernardino mountains, and over Dixie Land, Calif., at the eastern foot of the same coastal range. His course from there was over the stretches of the Colorado desert and the Arizona semi mountain ranges.

The film company yesterday had seven San Diego planes searching the planned course of the non-bearing plane, but they returned to their base last night after finding no trace of it. The company officials said Jensen had food and water enough to last about three days if he had been forced down.

Van Leuven Held For Hearing.

Peter Van Leuven of Gardiner is being held in the Elmer county jail pending a hearing before Judge Joseph Deyo in that town on a charge of burglary in the third degree. He was brought to jail on Sunday.

LEAGUE COMMITTEE FAVORS
WAR OUTLAWRY PROPOSAL

Geneva, Sept. 19 (AP).—A Japanese reservation that the employment of pacific means for the settlement of all kinds of disputes between nations only applies to members of the League of Nations caused a flurry today when the League Assembly disarmament committee approved the Polish project for the outlawry of all wars of aggression.

The Polish resolution, as finally voted, provides that all wars of aggression are and will be forbidden, that pacific means should be utilized for the settlement of conflicts "whatever their nature" arising between nations and that the assembly declares that there is obligation for all members of the league to conform to these principles.

Legion Drum Corps Meeting.

The file and drum corps of Kingston Post, No. 159, American Legion, will meet tonight at 8 o'clock in the Memorial Building, West O'Reilly street, to receive instruments and to rehearse. Burton Castle and Morton Finch, who headed the movement for the organization of the corps, will be pleased to see all members who signed up at the rehearsal tonight. Should any other Legionnaire who did not enlist in the file and drum corps wish to join, he may do so this evening.

Former Syracuse Resident Dies.

Los Angeles, Sept. 19 (AP).—Arthur R. Peck, 63, a director of the United States Industrial Alcohol Company of New York and of the Syracuse, N. Y., Trust Company, died at his home here last night after a paralytic stroke which terminated a two month illness. Prominent in business and social circles here, Mr. Peck had been active until recently as president of the Anahem Sugar Company. He came here 15 years ago from Syracuse, where his body will be taken for burial.

AUTHORITIES INVESTIGATING
MURDER OF AGED PHYSICIAN

Hammonton, N. J., Sept. 19 (AP).—Authorities today were investigating the possible connection a letter said to have been found in the vicinity of the lonely spot where Dr. A. William Lillendahl, 65 year old retired physician, was shot to death last Thursday, might have with the slaying.

The letter was said by the police to have been addressed to Mrs. Margaret Lillendahl, the physician's 41-year-old widow, who since the killing has remained at state police headquarters here. Its contents were not divulged, but it was reported to have referred to financial difficulties the writer was encountering. The missive was signed with an alias, but the authorities said the writer was known to them, and that he might be questioned later in connection with the case.

Prosecutor Louis Repetto, of Atlantic county, announced that he would have Mrs. Lillendahl held under "substantial bail" as a material witness today. The woman, who has been questioned a number of times since she was brought to the police barracks here, maintains that Dr. Lillendahl was shot by two negroes who later robbed her. The police said there were no footprints other than those of a woman about the automobile in which the man's body was found.

The prosecutor announced that the case probably would be presented to the grand jury Thursday.

School No. 6 P.-T. A.

The Parent-Teacher Association of School No. 6 will begin its year's work at a meeting at the school building on Tuesday afternoon, at 2:30 o'clock. Mrs. O'Reilly, district nurse, will deliver a talk on diphtheria and its preventives.

BROADCAST PROGRAM
OF GOVERNMENT CLUB

The regular meeting of The Government Club, Inc., will be held at the Hotel Astor, New York city, on Monday afternoon, October 3, at 2 o'clock.

The following program will be broadcast through the courtesy of Radio station WEAJ, National Broadcasting Company, Inc.:

To the Colors—Color guard and bugler by courtesy of Rear Admiral Charles P. Plunkett, commanding third naval district, United States Navy Yard, Brooklyn.

The Star Spangled Banner—Heleen S. Frankenthaler, soloist. Mme. L. Saverio, at the piano.

A Nation in the Making—Ralph R. Lounsbury, member of the New York Bar.

Address—General Louis W. Stotesbury, war time adjutant general of the state of New York.

Address—Hon. Walter R. Herrick, Commissioner of Parks of the city of New York.

Mrs. William Hunter Winter, a former resident of this city, is the corresponding secretary of the Government Club.

KNIGHTS WILL NOT HOLD
DANCE THIS WEEK.

The regular Wednesday night dances to be held under the auspices of Kingston Council, No. 275, Knights of Columbus, will not start until Wednesday, September 28. It was previously announced that a dance would be held Wednesday of this week but owing to changes in the plans the dance will not be held. John Erbe's Broadcasting Orchestra will furnish the music for the dances throughout the season.

Prefect's Meeting.

The prefects of St. Mary's Holy Rosary Society will meet in the school hall Tuesday evening at 7:30.

Try to Solve
Identity of Baby

Cleveland, Sept. 19 (AP).—Palmistry and prayer, medicine and law, even a device for "measuring corporate vibrations"—were a few of the agencies that had been offered today to solve the disputed identity of "Baby Smith, female" at the Fairview Park Hospital.

Men of medicine, who planned a conference today with an idea toward determining if possible whether the baby really is the child of Mr. and Mrs. Sam Smith or as the Smiths claim, a substitute, were doubtful if their efforts could be conclusive.

Judge Cal V. Weygant, of common pleas court, has indicated he will not take any action until advised of the consensus of opinion of the physicians, who were asked to help by counsel for the same Smiths.

Judge Weygant himself was brought into the affair when Sam Smith filed an action of habeas corpus which seeks to compel the hospital authorities to give to Mrs. Smith the male child she has insisted was born to her.

Two other women named Smith, to whom sons were born about the time Mrs. Sam Smith became a mother, remain unshaken in their confidence that they have their own babies.

Warringtons Lost.

The Warringtons dropped a contest to the Olive Bridge nine Sunday afternoon after collecting a goodly number of hits, one of which was a circuit clinch by Hicks and three triples each by Taylor, Robbins and Lewis. The final score was 4-3. Snyder and Fisher formed the battery of the Warringtons.

KINGSTON, N. Y., SEPT. 19, 1927.

COST OF CLOTHES.

It is startling to learn, from the federal Department of Labor, that men spend more for their clothing than women. The annual expenditure of the average American for this item, the statisticians find, is \$71.38 for a husband and only \$53.55 for a wife.

This reverses all tradition. It also raises the question as to which is really the vain sex—clothing ministering to vanity more than to necessity or comfort. It will be harder for husbands when this news spreads around. Women, being generous, will not insist on curtailing their husbands' sartorial expenditure, but they will demand an even break. Here is a matter in which a good argument can be made for equal rights.

One thing must be said, however, to the credit of the men. If they have spent more for their clothes than women in recent years, at least they have got more for their money.

WEATHER AND MORALS.

A judge over in Moscow attributes a recent outbreak of crime to sunspots. "That may be so in Russia," replies an American probation officer, "but in this country, according to my observation, moonshine has more to do with it."

That is not altogether a frivolous remark. Moonshine liquor, he declares, has done more to increase crime in America than any other cause except narcotics. As for sunspots, his inquiries do not seem to show any more criminal activity during a sunspot period than at other times.

That may be the case. But if sunspots create the weather disturbances that scientific weather authorities are attributing to them nowadays, they may have more malign influence than people realize.

Suppose sunspots, which signify sun storms, mix up the weather on earth, giving us cold weather when we should have warm, and rain when we should have drouth, and vice versa, creating periods of intolerable humidity and generally bedeviling weather conditions. Doesn't that make millions of normally virtuous and law-abiding people feel like going out and committing crimes?

Weather is immensely important to human beings, as we prove by talking about it so much, but we may never have realized half its effects on human conduct.

"NATIVE ENEMIES."

A resolution introduced in the Massachusetts legislature by a Boston representative calls for a national census and registration of aliens and the deportation of alien anarchists, to which there can be no valid objection, if the country wants to do it and the job is handled wisely. Not so much can be said, however, of further activities urged by the same representative. He says:

There should be legislation to reach not only the foreign rinks among us, but also the parlor pinks and the native yellows as well, whether they are connected with our higher institutions of learning or whether they are of the common variety.

The spirit of this utterance is disquieting to a typical, old-fashioned citizen brought up in the traditions of American liberty. This Boston legislator would probably have banished Thomas Jefferson from the country, either for writing the Declaration of Independence or for proposing the 10 amendments constituting the "bill of rights" in the United States Constitution after the Federalists had had their way with it. He would probably have banished William Lloyd Garrison, the Boston Abolitionist.

It would be a difficult matter to phrase any such principle as is here suggested in a way to make it pass the test of constitutionality. But suppose that could be done—what would be the result? It would take the wisdom of a Solomon to administer, and in the absence of Solomons the outcome would almost certainly be a regime of political persecution and reprisal. First the conservatives would persecute the liberals, and then the liberals, swung into power by the inevitable

see-saw of opinion, would enact opposite legislation and persecute the conservatives.

There are some extremes of conduct so patently inimical to the welfare of the country that they cannot be endured. But in the matter of holding and expressing opinions about government or economics or anything else, there is a broad middle ground of freedom, traditionally broader in this country than elsewhere, which is not to be lightly invaded at the behest of leaders who are overzealous or ignorant of their nation's history and heritage.

Better let silly folk prattle and fume than bottle up discontent or shut the door on new ideas that may possibly have merit. Even radicals sometimes have good ideas, as our Constitution all the way through bears witness. And the best way to kill bad ideas is by open discussion.

THAT BODY OF YOURS

(Registered in accordance with the Copyright Act.)

SAVING LIFE AFTER ELECTRIC SHOCK.

You have been thrilled recently, as you read about a case of shock by electricity, that relays of men have kept up artificial respiration for hours and days, in an effort to save the life of the victim. In death from electric shock it has been learned that about one-half die from heart failure, and the other half from failure of the lungs to work.

The electricity so shocks the nerve centers that there is no response, no effort on the part of the nerves supplying heart and lungs to act. They are completely paralyzed.

This is the reason that massage and other measures do not meet with success in these severe cases. Dr. R. W. Urquhart tells us "when the electric current does not cause charring of nerve structures, the paralysis is recovered from, and the reflexes return, provided efficient artificial respiration is applied."

This artificial respiration should be commenced immediately and kept up for hours and days, when possible, by using relays of helpers. It is not considered wise to stop all efforts to revive a victim simply because ordinary signs of death may be present, that is the heart not beating and the lungs not breathing, but the patient is not dead. The patient is holding a mirror to the mouth, which would be moistened if the time be of no value, because for the time being at least, the patient is not breathing.

The patient is placed face downward on the ground. You put yourself astride or on one side of the patient's body, in a kneeling position, facing the head. Placing your hands flat in the small of his back, with the thumbs nearly touching, and the fingers spread out on each side of the body over the lowest ribs, lean forward, and steadily allow the weight of your body to fall over upon them, and so produce a firm downward pressure, which must not be violent.

Immediately thereafter, swing backward, relaxing the pressure, but without lifting hands from patient's body. Repeat this forward and backward movement every four or five seconds.

Remember to keep it up for hours and even days, for as long as there is any warmth in the body there is hope.

This knowledge may save a life sometimes.

TWENTY AND TEN YEARS AGO

Sept. 18, 1907—Mayor Walter P. Crane and Miss Eleanor Augustus Gallagher married at bride's home on Clifton avenue by the Rev. C. H. Taylor of Trinity M. E. Church.

Two smallpox cases, both negroes, discovered and were removed to the pest house.

Fire board returned from a tour of inspection of the Mohawk valley. Weber Hose Company, No. 3, disbanded.

Miss Mabel Kelly and Benjamin C. Storm married.

Miss Esther Elmendorf and Floyd L. Nestell married.

Sept. 19, 1907—Charles L. McBride elected vice-president of the National Retail Druggists' Association.

Death of Mrs. Constantine Breithaupt at her home on Newkirk avenue.

Rapid Hose and Excelsior Hose Companies returned from Port Jervis where they took part in the big firemen's parade.

Sept. 18, 1917—The Kingston Creamery on Downs street purchased the milk business of Burdett Hallenbeck on Henry street.

Weiner Hose Company tendered a banquet to its twelve members who had been called for service in the army.

Death of Mrs. Louis D. Sahler at Stone Ridge.

Sept. 19, 1917—The Master Bakers of Kingston enjoyed a shore dinner at Lake Katrine.

There were 3,192 pupils enrolled in the city's schools.

Benefit in Joy Giving

When you once get started in joy giving, it's easy to keep it up. The fact that you give joy, brings candidates for your magic touch constantly before you. The returning benefits of having given joy keep you supplied with the means of joy giving. So you just increase the ever enlarging stream that through you ministers to your fellows. And your own joy increases with each new expression of your good will. The joy-giving habit grows upon you and you would perfectly miserable without the chance of helping others to happier days. It's real joy—Grit.

SAUGERTIES

Saugerties, Sept. 19.—The well known Saugerties block on Partition street, which was owned by Ferdinand Bernstein of Irvington, N. J., has been sold to A. Amrod who resides on lower Partition street, this village. Mr. Amrod will take possession of the property and open up a dry goods and furnishing store. The sale was made by Becker and Martin.

Mrs. John C. Kamp of John street is offering a gold prize of \$25 to the high school girl who does the best work in drawing during the year or half year. This includes elementary mechanical drawing and elementary design.

Kernit Eckert of East Bridge street has left this village to join the 15th Infantry at Fort Jay, N. Y. A daughter has been born to Mr. and Mrs. Oscar Snyder of Partition street at the Beers Sanitarium.

A daughter has been born to Mr. and Mrs. George Van Bramer at their home in Centerville.

The dam in the upper creek has been repaired by the workmen of the Diamond Mills Paper Co. This will add greatly to the saving of water for this company.

On Friday evening of this week there will be a chicken supper held in the banquet hall of the Reformed Church by Group No. 3 of the Women's Auxiliary. Dinner will be served from 5:30 to 7:30.

Four boys were brought before Police Justice Gardner on last Thursday afternoon for stealing grapes and damaging a garden. The judge gave them some advice and they were allowed to go.

Alfred Daniels of New York city was arrested by Police Captain Richter for speeding on the village streets. He forfeited a bail of \$10.

Mrs. Devery of Montross street will move into the house of Mrs. Hansen on Elm street about October 1.

Mr. and Mrs. Cecil Longendyke and family, also Mr. and Mrs. Vernon Lee and family, all of Schenectady, spent the past Sunday with Mrs. Ella Longendyke and family of Ulster avenue.

School Tax Collector Ernest Hasinger will begin receiving tax money at one per cent. Mr. Hasinger will be located at the store of F. T. Lewis on Main street.

Work on the new high school building is being rushed by Contractor Fisk. A large force of men are employed.

Mrs. Fred Burger of Lake Katrine spent the past Sunday with Mrs. Raymond Benton of Elm street.

Hans Pfalzgraf has bought a new Nash six sedan from the local agent, Leslie MacMullen.

Mr. and Mrs. George Smith, who have been spending some time at Masonville, have returned home.

Mrs. Mabel Molineaux, who has been spending the summer months at Chautauque, N. Y., has returned to this village.

Mr. and Mrs. George Lerner of Northampton, Pa., spent some time recently with Mr. and Mrs. Samuel Lerner of John street.

John Harms, who has been in New York city for some time, has returned to his home on Post street.

Miss Adelaide Babcock of the Saugerties Bank staff is spending some time at Asbury Park.

William Covert and T. LeRoy Muir were recent guests of Miss Katherine Barber and Mrs. Eva Simpson of Market street.

No appointment has been made yet to fill the office of trustee made vacant recently by the resignation of John Carrington. The trustees only did a small amount of business at the last meeting.

Charles McNally, Jr., is ill at his home on the South Side with intestinal poisoning. Dr. Kamp is attending him.

A concrete walk is being laid in front of the building of Tony Arabio on South Partition street.

A number of Saugerties members of the Methodist Church motored to Ardsley-on-Hudson Sunday morning and attended the morning worship with the former pastor, the Rev. J. C. Coddington.

Mr. and Mrs. William S. Myer of Lafayette avenue spent the past few days at Asbury Park, N. J.

Miss Etta Seamon, who has been spending some time at Bombay, N. Y., has returned to her home on Market street.

Mr. and Mrs. I. Lazarus, who have been spending some time at New York city, have returned to their home on Main street.

Mr. and Mrs. Lewis Kleeber and daughter, who have been motoring in Northern New York state, have returned to their home on Partition street.

Mr. and Mrs. S. Martin and James R. Martin of Elm street motored to Philadelphia, Pa., on Sunday.

Mr. and Mrs. C. H. Vedder and friends are on a motor trip through the Adirondacks and Canada.

Mr. and Mrs. John Snyder and the Misses Mildred and Anna Lang of Russell street spent the week end at Woodhaven, L. I.

Martin Cantine, who has been quite ill at his home on Main street, is somewhat improved under the care of Dr. John C. Kamp.

Albert Haines of Ulster avenue, who has held the position as chauffeur for Mrs. R. P. Overbagh of Main street for the past several years, has resigned and is now working in the Oscar Snyder repair shop on Partition street.

David Schoenag, Jr., of Ulster avenue, underwent a slight operation at the Beers Sanitarium last Thursday morning.

Donald Fellows of Washington avenue has entered Syracuse University, where he will take a course of study.

A daughter has been born to Mr. and Mrs. Edward Newkirk of Veterans at the Beers Sanitarium.

Miss Bertha Myer, daughter of Mr. and Mrs. Frank Myer, of Barclay Heights, fell from a bicycle that she was riding last Wednesday afternoon and was injured quite badly.

Man-Insect War At Critical Point

Syracuse, N. Y., Sept. 19.—The man-insect war is reaching one of its climactic stages. The question whether man will save himself through preventing the destruction of his food supply by insect enemies is becoming more acute, says the New York State College of Forestry, Syracuse University.

Insect depredations have been placed under control in some cases, in others it is still uncertain whether insects have the upper hand or not. And in still other cases insects undoubtedly have won. We may not know all the insects engaged in this fight.

There are thousands of varieties. Not infrequently new insects are being discovered or are brought into the country from foreign lands and if allowed to run their natural course would cause untold destruction to vegetation. The Gypsy moth and the spruce bud worm in the East and the bark beetles in the South and West are making great inroads upon the forests. It is estimated that enough wood is destroyed by bark beetles annually to supply the demand of twenty million of our population. In other words these insects dispose of sufficient forest to supply three nations the size of the original thirteen colonies, or one-tenth as much wood as the people of the United States now consume annually. Timber and forest products amounting to one hundred fifty million dollars are sacrificed to insects annually.

Insects destroy more than fire. It is believed in Maine that the spruce bud worm has laid waste 40 per cent of the total stand of spruce, enough to supply pulpwood for the entire United States for three years. By destroying the trees insects are striking indirectly a blow at the farm in making buildings more expensive and water more scarce, which means farming will be less profitable. But in addition insects cause each year direct damage to our food supply in their devastation of crops, estimated to be 20 per cent of total crop value or \$240,000,000 annually. A force let loose that under the best prevention we have been able to provide is now able to destroy about one-fifth of the farm crop and probably two-fifths of our forest crop is a menace of serious proportions.

Work on the new high school building is being rushed by Contractor Fisk. A large force of men are employed.

Mrs. Fred Burger of Lake Katrine spent the past Sunday with Mrs. Raymond Benton of Elm street.

Hans Pfalzgraf has bought a new Nash six sedan from the local agent, Leslie MacMullen.

Mr. and Mrs. George Smith, who have been spending some time at Masonville, have returned home.

Mrs. Mabel Molineaux, who has been spending the summer months at Chautauque, N. Y., has returned to this village.

Mr. and Mrs. George Lerner of Northampton, Pa., spent some time recently with Mr. and Mrs. Samuel Lerner of John street.

John Harms, who has been in New York city for some time, has returned to his home on Post street.

Miss Adelaide Babcock of the Saugerties Bank staff is spending some time at Asbury Park.

William Covert and T. LeRoy Muir were recent guests of Miss Katherine Barber and Mrs. Eva Simpson of Market street.

No appointment has been made yet to fill the office of trustee made vacant recently by the resignation of John Carrington. The trustees only did a small amount of business at the last meeting.

Charles McNally, Jr., is ill at his home on the South Side with intestinal poisoning. Dr. Kamp is attending him.

A concrete walk is being laid in front of the building of Tony Arabio on South Partition street.

A number of Saugerties members of the Methodist Church motored to Ardsley-on-Hudson Sunday morning and attended the morning worship with the former pastor, the Rev. J. C. Coddington.

Mr. and Mrs. William S. Myer of Lafayette avenue spent the past few days at Asbury Park, N. J.

Miss Etta Seamon, who has been spending some time at Bombay, N. Y., has returned to her home on Market street.

Mr. and Mrs. I. Lazarus, who have been spending some time at New York city, have returned to their home on Main street.

Mr. and Mrs. Lewis Kleeber and daughter, who have been motoring in Northern New York state, have returned to their home on Partition street.

Mr. and Mrs. S. Martin and James R. Martin of Elm street motored to Philadelphia, Pa., on Sunday.

Mr. and Mrs. C. H. Vedder and friends are on a motor trip through the Adirondacks and Canada.

Mr. and Mrs. John Snyder and the Misses Mildred and Anna Lang of Russell street spent the week end at Woodhaven, L. I.

Martin Cantine, who has been quite ill at his home on Main street, is somewhat improved under the care of Dr. John C. Kamp.

David Schoenag, Jr., of Ulster avenue, underwent a slight operation at the Beers Sanitarium last Thursday morning.

Donald Fellows of Washington avenue has entered Syracuse University, where he will take a course of study.

A daughter has been born to Mr. and Mrs. Edward Newkirk of Veterans at the Beers Sanitarium.

Miss Bertha Myer, daughter of Mr. and Mrs. Frank Myer, of Barclay Heights, fell from a bicycle that she was riding last Wednesday afternoon and was injured quite badly.

Dr. Luther Emerick attended the injury.

The Master Mason degree will be conferred in Ulster Lodge, No. 193, on Wednesday evening, September 23.

John Russell, son of Mr. and Mrs. Garrett Russell of this village, received a broken leg when he fell from a hay mow on the Loomis farm in Blue Mountain.

The North American Lodge, Knights of Pythias, and the Pythian Sisters are planning to hold a fair in the Lauer hall Thursday, Friday and Saturday, October 6, 7 and 8. The committees are working to have this fair be a success which will add greatly to their building fund.

A daughter has been born to Mr. and Mrs. Harry Schryver of Market street at the Beers Sanitarium.

A daughter has been born to Mr. and Mrs. Harold Legg of the South Side.

E. H. Gueren of Ulster avenue has purchased a new Willis Knight 70 sedan from the local agent.

Dr. and Mrs. B. W. Gifford, who have been spending some time at Masonville and vicinity, have returned home.

William Albert of Flatbush has purchased a Chevrolet sedan and John Thode of Main street has purchased a new Dodge Six sedan from the Clinton Van Buskirk Motor Company, the agent.

Mr. and Mrs. Frank Gardner and Mr. and Mrs. Ernest Sylvia, all of this village, are enjoying a motor trip through the Thousand Islands and Canada.

Mr. and Mrs. Millard Willong and son of Norristown, Pa., are the guests of Mr. and Mrs. Millard Van Steenburgh of Market street.

R. F. Overbagh of Market street is driving a Studebaker sedan from the Van Motor Co. at Kingston.

Fastest Four in America Proves Its Claim to Title

Dodge Averages 67.35 miles per hour in Beating All Other Fours in Atlantic City A. A. A. Race

The Atlantic City (N.J.) Speedway Association, without Dodge Brothers instigation or knowledge, bought a Dodge Brothers Four and entered it in a Labor Day race for four cylinder stock cars. Four cars of other makes also competed. All were strictly stock cars as required by the rules of the association. The race was for 25 miles—to determine which was "The Fastest Four in America."

The Dodge won. Its average speed for the entire race, from a standing start, was 67.35 miles per hour (officially timed by A. A. A.).

Generous confirmation, to say the least, of the modest claim of "Mile-a-minute Performance!" Even more remarkable than the speed, however, is the fact that the car had been driven only 10 days and yet was able to withstand this difficult test without once stopping.

Thus the race not only offers conclusive proof of the Dodge's superiority in speed, but stands also as a glowing tribute to the rugged materials and excellent workmanship that go to make it—America's Fastest and Finest Four!

THANKS KINGSTON

We have done all in our power to give you the finest and largest 5c, 10c and 25c store in this county. Your tremendous enthusiasm of Friday and Saturday demonstrated your appreciation of our efforts.

The vast buying power of the great NEWBERRY chain, with stores in 150 cities and towns covering 15 states and reaching from Maine to California, is setting a new value standard for Kingston.

A brand new store awaits you here at 321-323 Wall street—a store new in every detail of construction, merchandise and equipment—a store new in its conception of the sort of values which the thrifty buyers of Kingston deserve. From the glistening new sign that proclaims the name NEWBERRY above the doors to the utmost corner of the farthest counter you will find the most desirable merchandise of the season at the lowest of prices.

Our host of buyers scour the markets of America for the values that have made the NEWBERRY name a synonym for economy—and their every effort has been exerted in obtaining the acme of values which you will find at all times at this new store.

REMEMBER:—IF IT'S NEW IT COMES FROM NEWBERRY'S

AGAIN WE THANK YOU

NOTICE TO CREDITORS.—In pursuance of an order of Hon. George F. Kaufman, Judge of Ulster County, notice is hereby given, according to law, to all persons owing claims against Herbert Carl, late of the County of Kingston, County of Ulster, deceased, testate, to present the same with vouchers in support thereof, to the undersigned, W. Anderson Carl, the Executor of the estate of said deceased, at 6-11 Field Court, Kingston, in the said County of Ulster, on or before the 15th day of January, 1928.

W. ANDERSON CARL,
As Executor of Will of
Herbert Carl, deceased.
B. VAN WAGENEN, Attorney.
69 Fair Street, Kingston, N. Y.

A salesman called a prospective buyer on the telephone. Answering, the buyer said that he had just been leaving the office when the telephone bell rang. The salesman was able to conclude his deal successfully and afterwards learned that the buyer had been on the way to look at his competitor's goods when the telephone interrupted him.... In these days of high-pressure business, seconds may mean the difference between business lost or gained. By using the Long Distance telephone whenever possible, you will always be "in the nick of time."

LOCAL SCRAPPIERS TO BATTLE AT POUHKEEPSIE

Charlie Fisher, one of Kingston's leading pugilists, will meet Jackie Reid in the semi-final of the card of bouts to be put on at the Woodcliff Park, Poughkeepsie, Wednesday, September 28. The two have met before in lively encounters and their rivalry is expected to be settled in their coming tilt.

Roy Van Puren, admitted by a large following of Kingstonians for his gameness and clever milt slinging, is scheduled to do four rounds with Patsy Todarelli of Poughkeepsie.

Joe Vosdick of Saugerties and

well known here will fight Jerry Sampere in a four round fracas. Vosdick went strong last season and had several scraps in the metropolis. George Jackson, better known in this vicinity as Gene Mack, will do battle in the final ten round bout of the show. He is scheduled to meet Eddie Clark of New York city.

Commercial Proposal

A West Dallas widow says the latest proposal she has received was from an Oak Cliff art student, who said he was painting the picture of a sea nymph and wanted a wife who would pose for him in the Trinity river.—Dallas News.

Kingston District Epworth League

On October 12, at Saugerties M. E. Church, the annual convention of the Kingston District Epworth League will be held. The convention will open at 10:30 a. m. with a brief business session. In the afternoon session Fred A. Victor of Saugerties will address the convention on the subject "Christian Citizenship." Mr. Victor is a very strong young people's speaker and has been connected with the New York Area Epworth League for a number of years. He is the vice-president of the New York Laymen's Association and has long been active in civic matters.

At the evening session Frank Barnard will have charge of the program and speak at the convention. Mr. Barnard is well known to Leagueurs of America, having spoken over the radio at different times.

Busy Season for Girl Reserves

The Young Women's Christian Association is beginning another season of many and varied activities. Very concrete plans are being made by the secretaries and committee members for clubs and classes, so it bids fair to be a very busy place during the winter months.

The Girl Reserves under the direction of the new Girl Reserve secretary, Miss Frances Hebe, and her advisors will hold the first meetings this week. A rally of all High School Girl Reserves will be held at the association building Thursday afternoon at four o'clock at which time there will be games and songs. Plans will be talked over concerning a setting up conference for the fall and Girl Reserve membership campaign.

On Friday afternoon at four o'clock the Grade School Girl Reserves will meet at the Y. W. C. A. for a picnic hike.

Every girl who is, or is not, but would like to become a Girl Reserve is urged to be at these meetings. All girls are welcome.

LAST NIGHT on the RADIO

Reception Sunday morning was excellent and the early afternoon was good but shortly after 3 o'clock static noises began and continued during the evening. There was an occasional thin spot in the static and WTAM, WJR, WLS, KDKA, WLW, WBBM, WHT, WCBD and a few other DX stations fought their way through.

Saturday evening one of the announcers distinguished himself by announcing "the familiar DeKoven's Recessional," which turned out to be Kipling's. The girl orator at KDKA spread all over the WLS and WSAI were clear and strong at 8:15. At 8:30 something very like static developed and suddenly and kept going. It was preceded by a brief session with the buzzer. This buzz was heard on the telephone, as well as on the radio, and stopped while news of its existence was being telephoned to the static detectives who are endeavoring to get on its trail and trace it to its lair.

BELIEVE MURDER SUSPECT ENDED HIS OWN LIFE.

Elmira, N. Y., Sept. 19 (AP).—Belief that Wilmer Leroy Wagner, sought for the murder of two State Troopers at Canandaigua, has ended his life, was expressed today by Mrs. Grace Miller, his sister. Mrs. Miller's husband, George Miller, shot himself at their home near Sullivanville last week, leaving her and three children.

Mrs. Miller bases her belief on the statement Wagner was not well at the time of the crime and that in addition to a high nervous temperament, he was suffering from ulcers of the stomach.

No Trace of Convicts. London, Ont., Sept. 18 (AP).—Although searching parties scoured the district all night, no trace was obtained of Ed Harrison, Ross McLeod, Frank Marion, E. Brown and Roy Arnew, who made a daring getaway from the Middlesex county jail last night after assaulting two turnkeys and locking them in a cell. The prisoners vanished without leaving a clue to the direction they took after gaining their liberty by climbing the jail wall.

Music as a Pastime or as a Livelihood

If you wanted your son to be a tailor, would you ask a tailor to give him one lesson a week and then let him practice for one-half or one full hour daily on making clothes? Music is a more profound and difficult study than tailoring. A great many people earn their livelihood through music. Just as a great number earn their livelihood by tailoring. If you want your boy to reach that livelihood earning stage, then he will have to work about six hours a day and take at least one lesson daily. However, if your aim is merely to have him study music as a form of culture, just as one would study French, Latin, Spanish, drawing, etc., within the day's work, devoting a fraction of the day's study to each, then, of course, he will derive a great deal of beneficial and worthwhile knowledge from them all, but very little real and lasting knowledge from any particular one.—Musical Observer.

Opening of Fall Hunting Season

Albany, Sept. 19.—The fall hunting season will open on September 24 when ducks and shore birds may be taken.

The open season for ducks, geese and brant is from September 24 to January 7, except on Long Island where it is from October 16 to January 31. There is no open season for wood duck, eider duck or mallard.

Wilson snipe or Jack snipe may be taken from September 24 to January 7, except on Long Island where the season is from October 16 to January 31. The bag limit is twenty in one day.

For snipe, snipe and other rails, except coot and gallinule, the season opens September 24 and continues until November 30; and for coots and gallinules it opens on September 24 and continues to January 7.

The season for woodcock opens on October 1st and continues until November 30. Under the Federal Migratory Bird Treaty Act there is a bag limit for four birds in one day. The grouse season throughout the greater part of the state is from October 1 to November 15, inclusive.

On Long Island it is from November 1 to December 31 and in the counties of Sullivan, Orange, Greene, Delaware, Ulster, Rockland, Columbia, Putnam, Dutchess, Rensselaer and Westchester is from October 15 to November 30.

In Monroe county, Seneca county, and Ontario county there is no open season.

In Chautauque county the open season is from October 15 to October 31.

Ducks, geese and brant may be taken during the open season from half hour before sunrise to sunset by aid of any floating device other than sail or power boats, at any distance from shore on Long Island Sound, Lake Champlain, Lake Erie, Niagara river, Chautauque Lake, Shinnecock, Gardiner, Peconic, Reeves and Planders bays, and in Great South bay west of Smith's Point and east of the Nassau-Suffolk county line. On Oneida Lake, the Hudson river, and lakes, ponds and streams or parts thereof in counties bordering on the Hudson river, or through which such river passes, water fowl may be taken during the open season thereto by aid of any floating device other than sail boats, power boats, or batteries at any distance from shore. No shooting device, or decoys, either artificial or living, used in aid of taking water fowl, shall be placed upon the tidal water of the state more than one hour before sunrise or left thereon more than one hour after sunset. Batteries shall not be used on any of the waters of Great South bay on Long Island, for taking water fowl, before November first of any year.

A person may take in any one day during the open season, twenty-five ducks in the aggregate of all kinds; eight geese in the aggregate of all kinds; eight brant.

Every hunter should provide himself with a copy of the syllabus of the fish and game laws which will be furnished free when he obtains his hunting and fishing license.

Gloria Trumpeters at Saugerties. At the regular morning service in the Reformed Church on Main street, Saugerties, Sunday, the famous Gloria Trumpeters gave a concert before a full congregation. These ladies are known all over the country for their excellent work as musicians and it was a treat to a large number of local people as well as the large number who came from out of town to hear them. The members of the trumpeters are Mrs. Williams, Miss Gura, Miss Roberts and Miss Coompan, and they have been spending some time at the bungalow colony of Ernest Williams at Pine Grove, near Saugerties, where they have been rehearsing for the coming season.

Fragments of Bottle

Good Legal Evidence

Fragments of a broken bottle once settled a legal dispute as to the location of the original corner post of a surveyed tract. It was customary in the old surveys to place broken bottles, crockery or other articles that would resist decay in the holes where the corner posts were to be set, and notes of such deposits were recorded by the surveyor in his book.

On this particular occasion, when an effort was being made to establish the location of a post in Canada which had been set sixty years previously, the surveyor's gang dug for two days over an area covering more than fifty square feet. Finally the diggers unearthed broken glass with embossings that corresponded to the notes in the original surveyor's book. With this point established, more than thirty posts in the vicinity were restored and the dispute over the boundary lines was settled.—Kansas City Star.

Church Members Rapidly Increase

Despite Reports That Congregations Are Diminishing Authorities State Church-Members Have Increased 50 Per Cent in Last 25 Years—Churches Gain Members Faster Than Population Increases.

Stirred by recent reports that the churches are suffering severe losses in membership, officials of the Federal Council of the Churches of Christ in America today issued a statement declaring that the real truth is precisely the opposite. Figures are presented for twenty-five leading denominations, showing that they have grown almost fifty per cent in the last twenty years.

This statement was made, according to the Rev. Charles S. Macfarland, general secretary of the Federal Council of the Churches, in response to many inquiries as to the validity and significance of the public announcement accredited to H. K. Carroll on July 30 that "the total yearly loss (of Protestant churches) would approximate about half a million."

"This estimate," said Dr. Macfarland, "has been completely misunderstood, because it had to do only with one side of the picture. It made no reference to the additions of new members year by year. For example, the Rev. Frederick L. Fagley, of the Congregational Commission on Evangelism, was quoted as saying that about 30,000 members are lost from the rolls of that denomination annually, but no mention was made of the fact that some 75,000 are added to these rolls each year and that the percentage of increase in membership is greater than that of the population of the country. The fact is that the net result for all Protestant denominations has been a gain in membership considerably in excess of the growth in population. No thoughtful person should overlook the disquieting drift from active to inactive membership, to which Dr. Carroll called attention, but anyone who thinks this means that the churches are decreasing in membership simply does not know what he is talking about."

The statement gives statistics from the U. S. Census Bureau and the Handbook of the Churches. It says: "How utterly false are the impressions that the churches are losing membership is shown by the figures of the United States Government Census of Religious Bodies in 1906 and 1916, supplemented by the figures for 1926 in the latest Handbook of the Churches. The twenty-five principal denominations in the United States had a growth in total membership from 18,762,943 in 1906 to 23,638,597 in 1916 and to 27,466,470 in 1926."

"There was never a time in the history of the country when so many people belonged to the churches as now. Never a time when a larger percentage of the population were church members. In the face of the cold figures, how ludicrous is the doleful lament, recently heard in many quarters: 'How long can Protestantism stand such losses?'"

"From 1906 to 1916, in twenty-five principal Protestant denominations, the net gain in membership was 4,875,654. From 1916 to 1926 the net gain was 3,827,573. This is a gain of 8,703,227 during the last twenty years. In addition to making up all their losses from death, removal and other causes, the churches have made a net increase in membership of 46.4 per cent in twenty years."

"During these same twenty years, the increase in population of the country was 26.5. The churches, in other words, gained in membership much faster than the population. "It is true that when the so-called war decade (1916-1926) is taken alone the figures are not so encouraging. For these ten years, the gain in church membership was 16.2 per cent, while the gain in population was 16.3 per cent. This condition may perhaps be explained by the diversion of the Church's energies during the war years. During the last half of the decade, however, a recovery has been taking place."

GEM SOCIETY HOLDS INTERESTING BANQUET

On Wednesday evening, September 14, at eight o'clock, the Gem Society of the Clinton Avenue M. E. Church, held a banquet at the Advance Restaurant.

Thirty-one were present. This included the husbands of the members of the class, also Miss May Hayes. The tables were very attractively decorated with place cards and favors. At each place had been placed conundrums and songs. Between each course the different songs were sung by all present. The asking of the conundrums gave lively entertainment to those present.

At the close of the banquet Miss May Hayes, who has spent nearly seven years in China as a missionary, gave a very interesting talk. She told of the pleasant experiences she had had while in China.

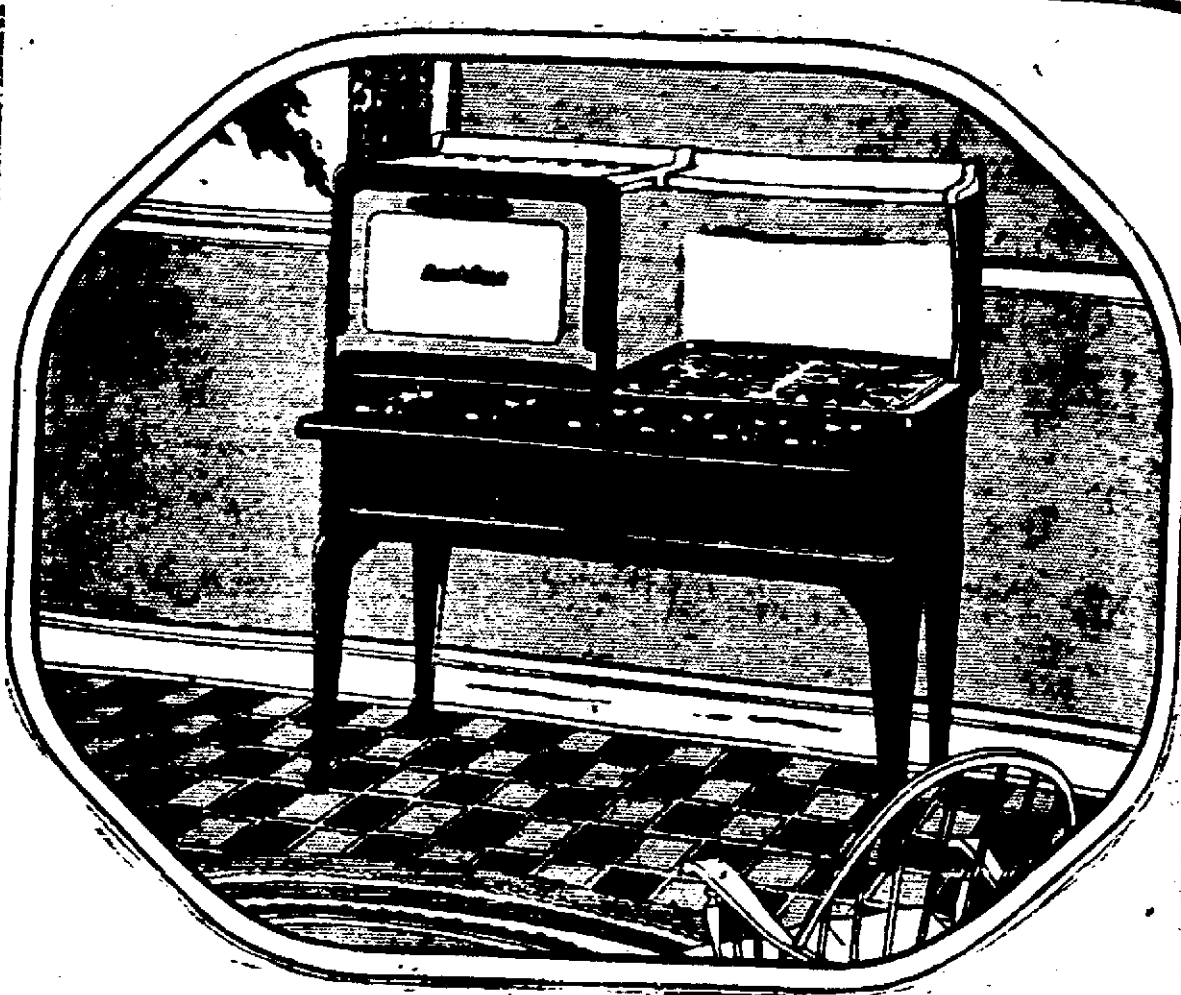

NETTACAHONTS.

Nettacahonts, Sept. 19.—The Sunday school picnic will be held on Thursday, September 22, afternoon and evening. Plenty of good music will be furnished and a good supper will be served and other refreshments and fancy articles will be on sale. The committee wishes all to come early to prepare supper and bring things for the fair as early as possible. Everybody welcome.

Mr. and Mrs. E. H. Overboudt will soon move into their new home which has been recently built. Mr. and Mrs. William H. Miller and daughter, Viola, spent Saturday and Sunday with relatives at Poughkeepsie.

Mrs. Jane Vandermark accompanied by her cousin, Mrs. Ellen Owens of New Falls visited at the home of Mrs. John Vandermark a few days the past week.

Channel buoys

WHAT would modern navigation do without the channel buoys—those floating markers that keep ships off the shoals? In a very real sense, the advertisements in this paper are channel buoys, placed for your protection—for the safeguarding of the family expenditures.

THESE advertisements are the signed statements of reputable firms who seek your patronage on the single basis of giving value for every dollar spent. They are honest statements, the only kind an advertiser can use and remain an advertiser.

PEOPLE who get the most for their dollar in the market-places are those who keep an eye on the channel buoys. Day by day, they follow the advertisements to learn what and where to buy to the best advantage. Make this a habit. Study the advertisements, in the interest of shrewder buying.

The advertisers in this paper have charted the channels of buying for you. Keep to the course.

Annual County C. E. Convention

Thirty-sixth Annual C. E. Convention
Christian Endeavor Convention to
Be Held October 1 in Stone Ridge
Reformed Church—Convention
Program.

The thirty-sixth annual convention of the Ulster County Christian Endeavor Union will be held on Saturday, October 1, in the Reformed Church at Stone Ridge and an exceptionally interesting program has been arranged for the convention.

The convention theme will be "Fellowship," and the convention text "Follow Me."

The official convention program follows:

Saturday Morning.
9:30—Arrival and registration of delegates. Registration fee 50 cents.

10:00—Devotional Moments, the Rev. A. Van Arsdale, New Hurley. Greeting, the Rev. Cornelius Van Tol, Stone Ridge.

10:30—Reply, Luther C. Dixon, county president. Musical selection, Lawrence Jensen, violin; Bentley Jensen, cornet.

10:40—College of Conferences: (a) Junior department, Miss Vera Baranum; (b) Intermediate, Mrs. J. J. Donoran; (c) Senior, the Rev. A. J. Coffey.

11:15—Questions on Departmental Work. In charge of the Rev. John E. McKens, New York state field secretary.

11:30—Address: "Attention and Attitude of the Christian Endeavorer," the Rev. Charles W. Smith, Kingston.

12:15—Picnic lunch. Each delegate will bring his own lunch. Coffee, tea or milk will be furnished by the local society.

Saturday Afternoon.

1:30—Open air service, the Rev. Lester G. Leggett, Wallkill.

1:45—Echoes of Syracuse. Milton P. Townsend, Kingston. Echoes of Cleveland, Miss B. Powley, Kingston. Kingston conference, Miss Eva Newkirk, Kingston. Albany, 1925, Mrs. M. E. Maynard, Highland.

2:20—Business Conference. (1) Report of registration committee. (2) The need of the hour, the Treasurer. (3) Pen Point, the Secretary. (4) Why use money, the President. (5) The ballots, the Delegates.

3:00—Address, Charles W. Latimer, Albany.

3:30—Duet, Mrs. Brown and Mrs. Dero, Highland.

3:45—Address, the Rev. E. D. Miner, New Paltz.

4:15—Recess.

4:30—Junior exercises. In charge of County Junior Superintendent, Miss R. Cure.

4:45—Address, "Personal Acceptance and Allegiance to Jesus Christ, the United Society's Current Two Year Program," the Rev. J. E. Pickens, state secretary.

5:15—Adjournment.

6:00—Supper. Furnished by the local society.

Saturday Evening.
7:15—Evening vesper, the Rev. Victor W. Simon, Gardiner.

7:30—Musical selection by the church choir. Report of committee on resolutions. Installation of officers.

Tells How to Buy Apples

Should be Guided by Season and Use, Says Specialist in Advising the Consumer How and When to Purchase.

A little forethought about the kind of apples one puts in the cellar for winter use may mean a big difference in satisfaction during the winter months, says the horticulturist at the Experiment Station at Geneva who advocates buying apples on the basis of their season and the use to which they are best adapted.

Asking for "just apples" is like asking for "just meat," without specifying the kind of cut wanted, says this authority, for there are different apples for different purposes just as there are different kinds of meat.

"If you desire a fancy eating apple for use in November and December, ask for McIntosh," says the station fruit specialist. "This is perhaps the finest dessert apple grown, being juicy, crisp, white-fleshed, and of pleasing aroma. Then, the Rhode Island Greening is about the best apple both for eating and cooking during December, January and part of February, while the ever-popular Baldwin is in season from January to March. The Northern Spy, although often more expensive than other varieties, is usually in strong demand and is rated as perfect for eating or for cooking.

"Other good varieties for winter use are Delicious, Jonathan, Yellow Newtown, and for extremely late in the season, Rome Beauty.

"Using the variety best suited for a given purpose, such as eating out of hand or for pie or other cooking purposes, is much more satisfactory than buying 'just apples.' Also, it is worth while to keep in mind the season of the year for which the apples will be wanted, for varieties vary so widely in their season."

Have Short Lives
There are many eggs of small insects that are hatching all the time. The ray of sunshine, falling weekly upon the side of a tree or upon an old log, will hatch out many of these eggs, and the little creatures wobble through a frozen air for a few minutes before perishing. Possibly it is a tragedy with them when they are brought into the world too soon. At any rate they do not flourish; they do not mate and propagate their kind when hatched out in winter.

Ancient Sealing Wax
Wax seals were used as far back as 1350 in England. Most of them consisted of a mixture of beeswax and resin, others of pure beeswax. Two seals in the public record office in London of the dates 1389 and 1423, respectively, were composed of wax.

Eleanor Gunn on Fashions

FALL FOOTWEAR ADOPTS AN
APPEARANCE OF WARMTH
BOTH IN LEATHERS AND
IN LINES.

New York—To be smartly shod this fall, the character of one's shoes must change with the season. Whereas light-weight, open effects, such as the sandal, have been very appropriate for summer, they will not serve for the autumn season. The fall shoe covers the foot more completely.

The tailored oxford with a leather heel is typical of what the well-dressed woman will choose for street and morning wear. Another shoe approved for general usage is the wide-toe type. This is quite the opposite of the slender-strapped lines of summer shoes, and therefore distinctly autumnal. Of course, for formal wear, when one's feet are not subject to the vagaries of the weather, light slippers with slim lines are quite correct.

Most important in selecting fall footwear is the necessity of matching colors. It is well to buy the

Leather. Brown Baby Calf and Brown Suede Unike in the Low-Moored Strap Shoe.

new winter coat first, and then go about one's shoe purchasing. A great variety of leathers will be available to the shopper, and consequently there will be more chances to go wrong.

It is quite safe to advise in favor of brown alligator or lizard shoes. These will outlast most of the other shoes in the wardrobe, and also maintain their intrinsic worth, less subject to the whims of fashion than many of the other novelty reptile leathers being shown. Suede leathers are looming on the horizon as newly smart, both in brown and in black. Unike on can have many pairs of shoes, snake-skin is a poor choice, for one will soon tire of it.

It is in combinations of two leathers that much of the chic of fall shoes is to be found. The lines of combination must be graceful and simple, however. Beware of over-elaboration.

(Copyright, 1927, by Metropolitan Newspaper Service, New York.)

Eleanor Gunn Says

New York—The tailored suit is given greater prominence than is usually the case in the fall. O'Rosen is favoring gray for suits, and also pays homage to the normal waist-line.

Coarse woolen materials, including tweeds, are among the favorites for general utility this autumn.

Angora and fuzzy angora finishes are among the interests in sports materials.

Sweaters are inclined to have high, straight band collars.

Many buckles are being worn. Circles and ovals of rhinestones are effective ornamentations of crepe satin dresses.

Diagonal, surplice, and square necklines are listed among the most fashionable.

Skunk, pointed like fox, is one of the fur novelties of the year. Shaved lamb, dyed in extraordinary colors, must also be mentioned.

Beading in diagonal formations is a new note apparent on many dance and dinner gowns.

Chestnut, brown, and navy are rivals of black.

Loose, flying panels as a means of lengthening the skirt and adding

movement are an autumn thought. (Copyright, 1927, Metropolitan Newspaper Service, New York.)

Benefit in Wearing Glasses

Wearing glasses does not weaken the eyes. This effect is apparent because the eye gives up straining and reveals the full necessity for glasses. Often eyes become so strengthened by the rest thus given that after a time the glasses are no longer needed.

Event Worth Remembering

In 1838, on the twenty-fourth of January, Samuel F. B. Morse gave his first demonstration of the code of dots and dashes used in telegraphy and now known as the Morse code.

Utilizing Waste

A new industry just introduced at Milan, Italy, consists of the manufacture from waste leather cuttings of boxes for collars, cuffs and carpets, furniture coverings and wallpaper.

Daddy's Evening Fairy Tale

MARY GRAHAM BONNER

THE FAIRIES

The fairies had one of their fine balls last two evenings ago. Among their guests were the brownies, elves, gnomes, many of the birds, butterflies, hummingbirds, red lizards, grasshoppers, and crickets.

The crickets had arranged to sing for the dancing and the hummingbirds said they would hum the tunes all the time that the crickets sang.

The robins sang some extra songs, and, of course, the other birds joined in the chorus.

Then came supper time. The table was made of daisies and moss, and such dainties!

It would have made your

mouth water! They had the goodies that every child would enjoy most. Not a guest was forgotten. There were even little worms for the birds—and the other guests didn't mind at all, as they knew the robins and crickets and other bird guests loved little worms.

They were given to the birds in special dishes made of grass.

But just as all the guests sat down to supper the Fairy Queen said:

"Come, all my fine waiters! And as she said this she waved her wand high in the air."

Then from far and near the blackest of black crows flew down and alighted all around the table.

They had promised the Fairy Queen to be just as good as good could be, and to wait on all the guests before they had anything at all to eat.

They were quite willing to do this, for they had never been invited to a ball given by the fairies before and they were highly flattered.

They all had their black suits polished and brushed with the greatest care and they wore very fine aprons and had hats made of green leaves.

Every time a guest said, "Thank you," when anything was passed, a crow would say, "Caw-caw," which they meant to sound like "You're welcome."

The crows always say "caw-caw" to almost everything, but it is just the

Will Be Happy to Sing.

tone they use that makes the "caw-caw" mean something quite different each time they want it to.

At the end of the supper, after the crows had had a feast, too, the Fairy Queen asked them if they would sing the old, old song about blackbirds being baked in a pie.

At first the crows looked a bit sad, but then they said:

"Why, of course, we'll be happy to sing it."

"It's lots of fun to sing about such things after we have had a feast and know quite well that the Fairy Queen wouldn't bake us in a pie, even if we could get out afterward."

How the guests did laugh to hear the crows singing about blackbirds being baked in a pie—and stopping every minute to shout out:

"Not us, though, oh, no!"

And the Fairy Queen was very much delighted.

RIDDLES

What is the best ship on the ocean? Seashanship.

Why did the dew drop? Because the moss tose.

What is often found where it is not? Fault.

What is it that is raised in every land? Its flag.

Why is a hungry man like a baker? They both need (knead) bread.

Why is a jelly like a warm heart? Because it does not take much to melt it.

What ladies can never find anything when they want it? Mislay and Misplace.

What creatures turn red when they get into hot water? Lobsters and small boys.

Why is not a distance at sea measured by miles as it is on land? Because it is knot.

To what question has it been always impossible to answer anything but yes? What does y e s spell?

If Mr. Fish were to have his children's portraits painted to what might they be likened? Sardines—little fishes come in oil.

The KITCHEN CABINET

(By Miss Evelyn Nance.)

What is this patient entrance into nature's deep resources?

But the child's most gradual learning to walk upright, without

harm?

When we drive out from the cloud of steam majestic white

horses

Are we greater than the first man who led black ones by the

mane?

—E. B. Browning.

GOOD THINGS TO EAT

We really do not know how to cook vegetables unless we can make them both edible and attractive; not unless we can conserve every fraction of their food value and are so familiar with their composition that we can develop it by cookery.

The really efficient cook wastes nothing—neither the vegetable itself, the water in which it is cooked nor the parings or tops.

Chicken Soup With Vegetables.—Peel a pint of small onions and cook until tender in very little water. Line a soup tureen with thin slices of toast, cover with the cooked onion, add one cupful of cooked peas and a quart of chicken stock. Serve at once.

Corn Custards.—Mix one cupful of grated corn with three slightly beaten eggs, add one-half cupful of milk, one-half teaspoonful of salt, a teaspoonful of onion juice, and a few dashes of paprika. Put into small molds and steam, covered with buttered paper. Cook twenty minutes and serve with a tomato sauce.

Squash en Casserole.—Take two and one-half cupfuls of cooked squash, add three-fourths cupful of thick stewed tomato, two tablespoonsful of butter, one and one-half tablespoonsful of salt, one tablespoonful of grated onion, one-half cupful of chopped meat, fish or nuts, mix well and cover with three-fourths cupful of buttered crumbs. Bake in a hot oven until well browned. Serve from the dish.

Roast Beef With Mexican Sauce.—Reheat cold roast beef, cut very thin in the following sauce: Cook one onion finely chopped in two tablespoonsful of butter for five minutes. Add one red and one green pepper chopped, one clove of garlic also chopped, and two tomatoes cut into pieces. Cook fifteen minutes. Add one teaspoonful of Worcestershire sauce, one-fourth teaspoonful of celery salt and salt to taste.

Scorched Harvest of Importance in Japan.—Japanese soldiers do not give much trouble to the quartermaster's department. In the field they are capable of great endurance on a diet of dried rice, dried fish, dried seaweed, and pickled plums. The scorched is wrapped round the rice and used as a "relish" to it. Given a tiny fire, a steppan, and the ration mentioned, they are perfectly content, whatever the weather and however long the marches.

Seaweed is grown specially for food purposes, being cultivated with as much care as any other crop. After the typhoon season, the women may be seen bearing great loads of young trees which have been stripped of their leaves, though all the small branches are left intact. These are drawn into the weed on the shore, acres of bristly saplings being arranged in long, parallel rows where the tide ebbs over them twice daily. Gradually, the green fernlike weed collects on the branches, and flourishes there until the farmers harvest it. It is then carefully picked over and dried for future use.

British Coal Abundant.—For her size, Great Britain has more and better coal than any other country in the world. The coal seams, lying one below another to an unknown depth, not infrequently cropping out at the surface, are proof that tropical conditions once prevailed in the latitude of these islands. The district which is now Great Britain was connected in prehistoric times with the continent, and the coal of England doubtless runs under the channel and the southern part of the North sea, continuing in the coal fields of northern France, Belgium and Flanders.

Depends on Point of View.—We can see in the puddle either the mud or the reflection of the blue sky, just as we choose.—Lucy Fitch Perkins.

New Program for Home Bureau

The time of year has arrived for the beginning of the new program year in the Sister County Home Bureau, and rallies are being held daily in all parts of the county. So far the attendance has been larger than at any previous meetings held in the county, and plans are being formulated to bring about increased attendance at all meetings throughout the year.

The Gardiner Home Bureau took advantage of sale day at the home of Mrs. E. M. Buchanan to hold its first meeting while the ladies of the community were congregated for the sale. A forward step was taken in the selection of a transportation committee to function throughout the year. This committee of six is to receive notices from the county office of meetings to be held. Each member of the committee then is to notify other members and plan means of transportation for all who would otherwise be unable to attend. Luncheon was served by the Home Bureau at noon to all in attendance at the sale and over forty dollars was cleared. Twenty-eight attended the meeting, and all enthusiastically joined in making up the program for the coming year.

New Palitz Tea.—One of the best first meetings of any year to be held in the New Palitz Home Bureau was the meeting held at the Grange Hall Thursday afternoon, when 28 members and friends of the unit met for afternoon tea and to formulate the program for the year. The following program was carried out at this meeting:

Song, "Our Empire State." Reading of Home Bureau Creed. Piano Solo. Miss Hazel Bricker. Reading. Mrs. I. D. Kortright. Whistling Solo. Mrs. Geo. Wicks. Roll Call.

Planning of year's program—lead

by Miss Evelyn Nance.

Vocal Solo. Mrs. M. DuBois. Home Bureau Marching Song.

All in attendance were most enthusiastic over the plans for the coming year, and a special committee is to be formed for the purpose of increasing attendance at all meetings.

OUR DAILY PATTERN.

5864. This model suggests a Bolero ensemble. The dress is sleeveless. The collar may be joined to the dress or to the Bolero. This pattern is cut in 3 sizes: 16, 18 and 20 years. To make the dress with Bolero for an 18 year size will require 4 1/2 yards of 40 inch material. If the Bolero is omitted it

will require 2 1/2 yards. The width of the dress at the lower edge is 1 1/2 yard.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion Book Nation.—Send 15c in coin or stamps to The Freeman for our up-to-date Spring and Summer 1927 Book of Fashions showing color plates, and containing 500 designs of ladies', misses' and children's patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrating 30 of the various simple stitches), all valuable hints to the home dressmaker.

LADIES' AID WILL PRESENT ONE ACT PLAY.

On Wednesday evening, September 21, at 8 o'clock, a one act play entitled "The Minister Comes to Tea," will be presented by the Ladies' Aid Society of the Livingston Street Lutheran Church. Music will be furnished by Gus Koch and his seven piece orchestra. A new set of trap drums has just been added to the orchestra. Refreshments will be served after the close of the play. The cast of characters is as follows:

Ann Dunlop. Mrs. L. Walker. Ellen Canady. Mrs. S. Goodsell. Cora Warren. Louise Topp. Nelly Read. Marie Schroeder. Mabett Smith. Mrs. Ernest Studd. Helen Wilder. Mrs. H. Gronemyer. Mother Peters. Mrs. Fred Sabloff. Polly Dunlop. Carrie Wiedemann. Bella Crane. Mrs. E. Zeidler. Jane Wallace Heathcote. Mrs. Charles Petrie.

ACCORD.—Accord, Sept. 19.—Paul Sahler was in town last Saturday. A number of people from this place went to Coney Island last Sunday on the N. Y. O. and W. excursion.

Mr. and Mrs. Walter Davenport returned home last week after a vacation trip to Canada.

DAILY RADIO PROGRAM

Tuesday, September 20.

The Four Horsemen of the Cavalry are scheduled to center in the radio bands to the broadcast of WEAF and the Red Network on Tuesday night. Among the other artists who will appear in this entertainment will be Jimmy Lynd, character impersonator. The Eveready Hour which will be staged at the Crystal Studio at the Radio World's Fair may also be turned to the best of the music.

WEAF has arranged for two vocal highlights. The first is a program of Irish folk songs sung by Matthew Kelly, tenor, and old favorite melodies by Lawrence Williams. Other features scheduled for the entertainment of the fun in the music.

At the Metropolitan Mixed Quartet through WEAF, the Metropolitan String Band and the Manhattan String Ensemble through WJZ, the Columbian Male Quartet through WJZ, and a recital from the Eastman School of Music through WFAM.

Wave lengths in meters on left of station. The broadcast on the right. Times are Eastern Daylight Saving and Eastern Standard. Black type indicates best features.

Cornell Coach Has Tough Job

Chas. N. Y., Sept. 15 (P)—Glosser Dobie, head coach of the Cornell University football squad, "Glossy G" they call him, appears to have reasonable cause for being downhearted as the Big Red gridders enter their second week of practice in preparation for a hard schedule of games.

Dobie has about 65 candidates out and thus far he has seen no solution to a task that may continue to vex him throughout the season, the problem of building up an above the average backfield. Dobie has selected five eleven men from among his aspirants but at this early stage such choices mean nothing.

The material from last year's freshman and varsity squads has been predominantly for the line and there are a number of heavy, rangy men available for the places left vacant by Captain Carey, Munns, Evans and Rapunano.

Schoales, Schumacher and Dickham, three ends who won their letters last season, are distributed on the first two tentative eleven, while the three backs who were awarded "Cs" are scattered among four backfields.

Dobie is confining the pre-school practice to fundamentals of the game. He has not bothered with the new rules as yet, believing it too early. Incidentally Dobie's opinion of the new rules hasn't changed. He considers them a complicated set of regulations that hinder rather than advance the game, providing only additional obstacles in a game that is too highly developed and specialized as it is.

Backs assigned to the tentative eleven are Balderson, Dickinson, Scott and Hoffman; Sinclair, Hart, Dietrich and Beck; Cohen, Bender, Lyon and Bristol; Cramer, Kramer, Captain Hoelman and Rowe; and Harrington, Gerkin, Hewitt and Larco. Balderson played on the varsity last year, Scott and Hoffman were backs on the 1926 Frosh combination. Beck and Hoelman are the other varsity backs available this year. Hewitt was another member of the Frosh eleven last year.

Dobie is fairly well fixed for wing-men. He has Schoales, Schumacher, Schreck, Wickham and Brampelmeier, all on the varsity squad a year ago. He is also trying out Alexander, Champion, Quest, C. M. Martinez and West at the ends.

The tackles are Pyle, a squad member last year, and John Anderson, varsity regular in 1926. Levy, frosh tackle, and Tattersfield, converted from the guard position last season. Wortman, Parker, Modarelli, Katz, Ruzicka, and Stimmons.

The third guard positions are being sought by Townson and Richards of the frosh squad. Keller and Clink, both of whom played on the 1925 freshman eleven; Vincent, varsity substitute last year. Steinberg, Martinez, Bauman, Hall and Bowen. Ferris Keen, varsity substitute last year; Pomeroy, frosh center in

Better Than No Bath
Bathing in the snow is a common custom in Russia.

1926, Sibson, Ibold, varsity squad center last year, and Cakeman, converted tackle, are playing the center positions.

Other members of the Big Red squad are Carter, Kingsbury, Freeborn, Doty, Barrett, Hunter, Stilman and Malone, who are being worked in from time to time during practice sessions.

Fight Ballyhoo Helped Along by Battle of Words

Dempsey Asks Tunney to Explain Fight at Philadelphia—Tunney Sends 44 Word Reply—Exchange of Letters Looked Upon As An Attempt to Increase Sale of Seats.
By Alan J. Gould, A. P. Sports Editor.

Chicago, Sept. 19 (AP)—With both gladiators pronounced "in the pink," their training stages completed except for a few light and artistic finishing touches, the three-day interval before the Dempsey-Tunney heavyweight championship battle Thursday promised today to develop into a "battle of open letters."

The opening salvo of literary broadsides, lending a breezier touch to the "ballyhoo" for the greatest ring spectacle of all time, came from Jack Dempsey in the form of an "open letter" to Gene Tunney, copyrighted and published in this morning's issue of the Chicago Herald and Examiner.

Recalling gossip that the title fight last September in Philadelphia was "fixed," but at the same time admitting he was "beaten fairly and squarely," Dempsey's letter revived discussion of the so-called business agreement made just prior to the 1925 battle, in which Billy Gibson, Tunney's manager, agreed to pay Max (Booboo) Hoff, Philadelphia fight agent, 20 percent of Tunney's earnings, providing the former marine won the title, in consideration of a proposed loan of \$26,000 by Hoff to Gibson. Gibson, however, did not get the loan and Hoff did not collect the 20 percent.

Dempsey's "letter," as published by the Herald and Examiner, devoted most of its approximately 1,600 words to questions relating to the Hoff-Gibson contract, talk of alleged "heavy plunging" on Tunney at Philadelphia by gamblers and gossip of the fight being "fixed" for Gene to win.

In a 44 word reply, also published, as an "open letter," Tunney labelled Dempsey's literary production as "trash," questioned the former champion's sportsmanship and concluded with this postscript: "P. S. 'I might add that I wrote this letter myself.'"

The Herald and Examiner announced that it would publish another "remarkable letter" under Dempsey's signature tomorrow, thus suggesting to the war correspondents that more words than blows may be exchanged before the debate is settled in the ten round battle at Soldier Field.

Tunney, however, is not likely to reply to any further communications from the challenger. The champion, obviously annoyed by a literary turn of events not in harmony with his own tastes in such affairs, indicated rather strongly to his friends that he would let his fists finish the argu-

Gene Tunney Is a Fatalist

Believes That the Outcome of All Fights Was a Matter of Record Before Life Itself Was Created—Man's Best Efforts Can Only Help Bring About End Conceived.
Lake Villa, Ill., Sept. 15 (AP)—The calm assurance of a fatalist who believes the outcome of all life is a matter of record before life itself was created, will steel Gene Tunney against the failing sets of Jack Dempsey on Soldier Field Thursday night.

Thoughtfully, the big marine who stripped Dempsey of the heavyweight championship in the previous rain at Philadelphia, told today of his conviction, that the rejuvenated "Manassa Mauler" must again face defeat—and with it fatal oblivion—when the opening gong summons the two giants of the ring to the center of the gleaming battle ground while 160,000 persons cheer from the surrounding bowl of darkness.

"Fate," he said, "directs the paths of men from a common beginning, through disaster and triumph to a goal, an ending, that was pre-ordained before birth. Man cannot change his destiny. His best efforts only can help bring about the end conceived at the beginning of time."

Building upon this philosophy and drawing from the history of his career that has had its sole aim in winning and retaining the heavyweight title, Tunney pointed out that the fate that made him a boxer almost against his will, also had provided the driving force that had built his body from that of a middleweight at 21 to a full-fledged 190-pounder at 29.

Finally fate carried him to the pinnacle of pugilism, despite many disappointments and against the overwhelming opinion of the country's foremost fight critics.

That same fate, Tunney went on, guided his life outside the ring. Although Tunney never expects to marry, fate, he believes, may some time bring across his path the woman destined to be his mate.

Pan-Ams Victorious.
The Pan-Ams scored a win over the Sawkill Robins Sunday afternoon on the Saugerties Road Diamond.

Coluch did the hurling and O'Neil the receiving for the oil-men. The Pan-Ams are scheduled to meet the Beckwiths on the same diamond Wednesday evening.

The effect of the "open letter" episodes today was viewed by the correspondents largely as a transparent attempt to surround the forthcoming title battle with a "grudge" aspect. This is in contrast with the rather friendly manner, out of the ring, in which Jack and Gene previously have treated each other.

Colonials Won Two Sunday

Small Crowd Watched Local Team Defeat Gloversville, 11-1, 5-1—Games Scheduled for the Rest of the Season.
The Colonials took a dual bill from the Gloversville team at the Fair Grounds Sunday afternoon.

The Colonials took a dual bill from the Gloversville team at the Fair Grounds Sunday afternoon. The Colonials took a dual bill from the Gloversville team at the Fair Grounds Sunday afternoon.

The lone tally of the Gloversville nine came when Adore connected with one of Culleton's slants for a circuit clout. The pill did not land outside the field but fell among the high growth of weeds in Bill Schwab's territory and could not be recovered until the runner crossed home plate.

Maury McDermott registered the second homer of the game when he sent one over the right field fence in the second stanza. Maury was the leading stickler of the opening game with four hits out of five chances.

Jimmy Volker assumed the mound position for the Colonials in the second game against "Lefty" Blodgett of the Gloversville nine. Volker was touched for six hits and registered three strikeouts. Blodgett struck out nine of the Colonials and allowed five hits.

Bill Shay did the leading with the willow in the game and registered three out of four times at bat. One of his clouts was good for two sacks.

Remaining Games.
The Colonials will play three more contests before ending their season. The nine representing Poughkeepsie under the direction of Chief Mueller will be the next opponents at the Fair Grounds next Sunday. The locals will have to work against a battery of note for Tom McCarthy, of the Waterbury Eastern League team, will do the hurling and Coughlin, of the Southern League, will do the receiving. Peekskill will be here for a dual bill on the Sunday following, while the Colonials will play their final game of the season at Dexter Park, Brooklyn, against the Bushwicks on Sunday, October 9.

Sharkey Wants Dempsey to Win

Ex-Champion Goes Through Last Training With Jack Johnson Picked Dempsey to Win.
Lincoln Fields, Ore., Ill., Sept. 18 (P)—Among the good wishes Jack Dempsey will carry with him for the final Thursday night are those of Jack Sharkey, the Boston heavyweight, who succumbed to Dempsey a week ago in his second round comeback to a title bout.

Sharkey now "experts" for a Boston heavyweight, watched the former titleholder in his final workout last night and said he was surprised at Dempsey's speed.

Jack Johnson, another ex-champion, was also among the two at the last training bout. He said he had seen a lot of boxing skill he did not realize Dempsey possessed. Johnson ranged himself with the very few "experts" who have announced their "pick" by saying he believed Dempsey would "outlast" his opponent and crown even if the bout should go the full ten rounds.

Dempsey finished up his three weeks' training with another exhibition of speedy footwork and punching against Allentown Joe Gane. Rocky Russell, Dave Shade and Gek Till one round with each. Since the weather had turned much cooler, he did his boxing in the afternoon and on the main floor of the big clubhouse, in order not to risk catching cold in the outdoor ring.

His punching road work, and rest will be his program from now on. Manager Flynn said, with not another round of sparring.

Title Tilt Tonight at 5:45

The third game of Kingston's little world series will be played tonight, provided rain does not interfere, when the West Shore and the U. & D.-Cornell aggregations meet to decide which is the superior nine. Each team has one win to its credit in the race for the championship and one of the most interesting contests of the Industrial League is expected to be played when the two meet this evening.

Umpire Pete Jordan will call the game at 5:45, sharp, and all who wish to get a closeup of the encounter will no doubt have to be on hand early for one of the largest crowds of the season is expected to witness the battle.

Dick Williams will probably do the hurling for the downtown railroaders while Carpenter is expected to be on the mound for the West Shore.

It rain interferes with the game this evening it will be played Thursday.

Flashes of Life Sketched in Brief

(By The Associated Press)

New York—Here's some material for anybody who wants to guess how many millions will be spent because of the \$200,000 battle to determine who is the greatest fighter. Wall Street brokers estimate that wagers will total \$200,000,000, half of them abroad.

Stockholm—Here's a bunch for those who favor Tunney: Bud Gorman was so whipped by Harry Persson that the fight was stopped in the fourth round. Bud is one of Leo P. Flynn's fighters. So is Mr. Dempsey.

Los Angeles—The most beautiful blonde in Hollywood is a bride. So described by James Montgomery Flagg, Kathryn McGuire, movie actress, has married George W. Landy, film publicity director.

London—The lure of the stage is strong but so is that of politics. Mrs. Hilton Phillips (Mabel Russell) is to cease playing in a musical comedy in time to resume her duties in Parliament. Her place on the stage is to be taken by her sister-in-law, her understudy.

North Salem, N. Y.—In order that they may be in the best condition for the instruction and training of pupils, a ten o'clock curfew is in force for teachers and school janitors. By rule of the board of education they must limit their evenings out on days school is in session.

New York—One of Oscar Hammerstein's cigars is to be put with his high hat into the cornerstone of a theatre to be erected in his memory. Made by Oscar with a machine of his own invention, the cigar was presented by the showman and one-time manufacturer to his friend, Joseph Jarrow, cigar manufacturer and one-time showman. It has been preserved ten years as a memento.

Astronomical Mystery

The stellar universe has a background of pearly white, which always finds the field of a telescope with a faint luminosity, and astronomers are guessing as to whether this shimmering shroud is made of quadrillions of suns, or whether the universe is immersed in nebulous matter. The pearl veil is torn in places, at least a hundred jet-black wells of dark space being shown in the constellation Sagittarius and Scorpio. In one of these dark fields is Antares, which is computed to be at a vast distance from the earth, and to have 88,000 times the mass of our sun.

Havoc of Education

I am against all education. It makes women conceited and unkind. And it makes men dull and pedantic.—Frederic Harrison in 1904 to Lady Dorothy Nevill.

Ruth and Yanks Approach Records

(By The Associated Press)

Mabe (Louis) With Home Run and His Club Comes Within Two Games of New American League Record—National League Records.

George Herman Ruth and the New York Yankees were a little nearer to more baseball records today. Ruth yesterday closed his 54th homer of the season while the Yanks came within two games of a new American League record by taking both ends of a doubleheader from the Chicago White Sox, 2-1, and 5-1. Miller Huggins' clubbing circus now has won 194 games and needs two more victories to surpass the record for a season, set by the Boston Red Sox in 1912, when they gained 195.

With only eight games left on the Yankee schedule the team does not have a chance to batter down the major league record for season victories—116, set in 1906 by the Chicago Cubs. Ruth's chances of equaling or beating his previous record of 54 homers are none too good, but the Bambino still believes he will achieve his goal if the opposing pitchers will only pitch to him in the remaining eight games.

George's triple and Lazzeri's sacrifice fly provided the winning margin for the Yanks in yesterday's first game, which was a hurling duel between Thomas and Phipps. The Yanks hit Ted Lyons hard in the second game and Ruth bashed his homer off the Sox ace in the fifth inning with one runner on base.

Cleveland went 10 innings to beat out Washington, 6-4. Burns' double seat across the winning runs. Both teams hit the ball hard.

While the Pittsburgh Pirates were idle the Giants failed to gain ground in their fading bid in the National League race. Cincinnati Reds obtained an even break against the New Yorkers in a doubleheader. Red Lucas shut out the McGraw minions in the opener while his teammates got to Cantwell, Johnson and Walker, all recruits, for seven runs and eleven hits. The Giants took the second encounter, 4-2 by touching Jackie May for an early lead. Virgil Barnes was effective in the pinches. The Giants were out 10-7.

The St. Louis Cards pulled up to within a half game of the Giants, who occupy second place, by trimming Philadelphia in a doubleheader, 7-3 and 8-3. Grover Alexander turned in his twentieth victory in the opener and Littlejohn pitched the world champions through in the windup. Boston's Braves finally ended their losing streak after 15 straight beatings. They overcame the Chicago Cubs in a hitting orgy, 11-7. Other teams were not scheduled.

Paradoxical

If a home is happy everyone living in it does a lot of things he doesn't want to do.—Hillsboro News.

TREE PLANTING MAKING STRIDES

Forty-Two States Now Have Organizations for the Work of Forestry.

Washington—Marked advance in forestry legislation was made during 1927, says the Forestry Legislative Survey published to mark the close of the legislative year by the American Tree Association.

The legislative year was made notable because of the passage of legislation in Delaware, Florida and South Carolina took their places with forestry minded states. There are now 42 states that provide some forestry organization. Utah, Wyoming, Arkansas and Nevada have not provided for any organization, and the state forests of Arizona and New Mexico are cared for by a joint agreement with the U. S. forest service. Forestry legislation was passed for the first time in Nevada and Utah, but no organization was provided.

The survey, which is being sent to editors and foresters by Charles Lathrop Pack, president of the American Tree Association, shows the present area of state forests to be 6,839,850 acres and that 73,000,000 trees were planted during the year.

Pennsylvania Leads in Planting. States that kept the lead in tree planting were Pennsylvania with 27,918,029; New York with 22,000,000 and Michigan with 10,000,000. The state appropriation by Pennsylvania was \$1,203,485.

"The Mississippi river flood has directed the attention of the nation as nothing else could to the need of providing forests at the headquarters of the Mississippi and its tributaries," says Mr. Pack, in announcing the publication of the survey. "This phase of flood prevention, while it will not stop floods, will aid in preventing them and is the only one I know of that will pay dividends in future years. We must put idle land to work growing trees."

"It is obvious the American public is becoming forest minded. People are not only interested but active in seeing that our trees, both in the forests, in our parks and on our highways, are given more care, attention and protection."

Advances in Reforestation. Reforestation has made a notable advance during the year. The development of state nurseries and the distribution of tree seedlings or transplants, as in Pennsylvania, Ohio, Massachusetts, Michigan, New York, North Carolina, Indiana and New Jersey, have resulted in many trees being planted.

"Probably five times as many trees were planted in the various states in 1927 as were put on ten years ago. This, in itself, is a real accomplishment."

"The Clark-McNary act has stimulated state forestry activities, especially in fire protection and tree planting in many states. There is no question but that this law has greatly encouraged the formulation of forest policies and activities in many of the states which heretofore have been regarded as being somewhat inactive in this direction."

The survey reviews by states the legislative activity and among other things gives the name of the forester and his headquarters and the amount of money expended under the Clark-McNary act.

Soldier's Life Is Made Easier Even in France

Paris—The soldier's life is growing easier in France as elsewhere. Not only has the period of service been reduced for the youth of France from three years to eighteen months, but the pack the poilu carries is to be lightened.

Henceforth the French soldier will have two sacks. On the march the principal sack, carrying all that he really needs, will be carried by the soldier himself. The supplementary sack will be brought along by motor truck.

Esperanto in Schools

Toronto—Possibility of Esperanto as a study in public schools has been suggested to the World Federation of Education Associations.

Siberian Court Ends 200-Year-Old Suit

Novosibirsk, Siberia.—A lawsuit which has lasted more than 200 years was recently ended by a decision of the supreme land commission.

The litigants were two Siberian villages, Pushkarevo and Gorbunovka, near Tomsk. The suit arose over land which both villages claimed. The affair is of historical interest, since all documents and records have remained intact.

The Soviets have now declared the disputed land belongs to Gorbunovka. Catherine's order and other documents, among them the original agreement signed between the villagers and the Tsarist authorities of Siberia, are said to be kept by Gorbunovka in an iron chest which also serves as its bed.

Fables of Dickens

Charles Dickens invariably wrote in blue ink on blue paper, as he held the impression that the color of ink and paper greatly facilitated the flow of ideas. Another idiosyncrasy of his was the writing of day and month in full as "January twenty-sixth."

POLLING PLACES FOR FALL PRIMARY ELECTION

September 20, 1927.
Pursuant to the provisions of Section 73 of the Election Law, notice is hereby given that the following is a list of the polling places designated within the City of Kingston, for voting at the Fall Primary Election to be held in said city on the 20th day of September, 1927.

First Ward.

Fireman's Hall, Fair Street.

Second Ward.

First Election District—Garage of William C. Kukuk, 161 Tremper Avenue. Second Election District—Garage of Harry Wallis, corner Ave. House, Hill Street, Manor Avenue.

Third Ward.

First Election District—Barn of the Kingston Water Department, Janney Avenue, next to City Hall. Second Election District—Municipal Building, East O'Reilly Street.

Fourth Ward.

First Election District—Building of Ferdinand Myer, 230 Hasbrouck Avenue. Second Election District—Building of Casper Michael, 187 Delaware Avenue.

Fifth Ward.

Cordis Hose House, Delaware Avenue.

Sixth Ward.

First Election District—Lankinsky Bldg., 147 Hasbrouck Avenue. Second Election District—Weber Hose House, Hill Street.

Seventh Ward.

First Election District—Engine House, Abner Street. Second Election District—Huber Bldg., 77 German Street.

Eighth Ward.

misallusions of Election and the seal of office of the Board of Election in and for the County of Ulster at the City of Kingston, N. Y., this 17th day of September, 1927.

JOHN A. NOCK,
J. CHARLES SNYDER,
Commissioners of Election for the County of Ulster.

COUNTY COURT, COUNTY OF ULSTER.
FRED L. SCHUMANN, Plaintiff, against
MANN, his wife, HARRY B. MERRITT, ATLANTIC HOTEL SUPPLY CO., INC. Defendants.

Pursuant to a judgment of foreclosure and sale rendered herein on the 27th day of September, 1927, and duly entered in the Ulster County Clerk's office on the 14th day of September, 1927, I, the undersigned, the referee duly appointed for that purpose, do hereby certify that at public auction, to be held under the hands of the Commissioner of that date, at 12 o'clock in the forenoon of that date, at the front door of the County Court House of the County of Ulster, 240 Wall Street, Kingston, Ulster County, New York, the real property described by said judgment to be sold and herein described as follows:

ALL THAT TRACT OR PARCEL OF LAND situate in the Town of Ulster, County of Ulster and State of New York, on the line of highway leading from Kingston to Edenville (on west side of said highway) commencing at a stake in the center of highway and running thence northerly 20 feet to a stake in the center of highway, thence west 20 feet to a stake, thence south 100 feet to a stake, thence east 20 feet to the place of beginning. Containing in all of land be the same more or less. Said lot is Lot No. 1 as laid down on a map of 2 1/2 acre release, said map made by James M. Mott and said map now in possession of Joseph W. Becker.

Dated, September 14, 1927.

CHARLES DE LA VERGNE,
Plaintiff's Attorney.

The PONTINE MARSHES

View of the Appian Way.

(Prepared by the National Geographic Society, Washington, D. C.)

THE Pontine marshes, close to Rome yet little known, form one of the strangest corners of Italy. It is paradoxical that this region is not better known, for one of the world's most famous roads, the Appian Way, leads straight to it.

The Via Appia, built by Appianus Pontifex about 300 years B. C., starts from Porta San Sebastiano, the southern gate of Rome, and leads toward Naples. For the first 65 miles it runs straight as a taut string, until it reaches the town of Terracina, where it passes under the cliff of Monte Angelo that overhangs the sea.

The Romans had to chisel off part of the rock to make space for the road. After passing this point it takes a first bend and then goes to Naples.

When you leave the Eternal City on this classic road you pass at first along a wonderful array of old Roman sepulchral monuments; then you climb the Alban hills, extinct volcanoes of prehistoric times, and from there you gradually descend upon a great plain, some 30 miles from Rome, known to history as the Pontine marshes.

On the left, as you travel toward Terracina, are the olive-covered Lepine mountains, of gray limestone, that at sunset are veiled by that beautiful purple haze one sees so often reproduced on the background of the early Renaissance paintings. To the right is the Tyrrhenian sea, along the border of which runs a large sand dune covered by a wonderful oak forest some 30 miles in length. Between the dune and the sea is a series of lagoons.

At the extreme end a solitary mountain rises, to all appearances from the sea. It is Mount Circeo, the cornerstone of the Pontine marshes. This point was an island in bygone ages, as geologists have proved, and Homer, eight centuries before Christ, speaks of it in the "Odyssey" as an island, though probably it was not so any longer.

Water of the Marshes Confined.
The large quadrangle formed by the foothills of the Alban volcanoes, by the Lepine mountains, by the wooded sand dunes of the coast, and by Mount Circeo, measuring some 150,000 acres of extraordinary fertile land, is known to history as the Pontine marshes.

The water, hemmed in on all sides, cannot flow out.

In winter the mountain streams pour their foaming, muddy torrents upon this lowland, flooding thousands of acres; the rich mud slowly settles, coating the fields with a silt which is the finest of fertilizers; then the waters gradually flow out through narrow channels until, in summer, only the lowest portion of the land, that which lies practically at sea level, remains in a swampy condition.

A dense, luxuriant growth of water plants springs up with the approach of the warmer season; the stagnant, lukewarm waters teem with life of every description, and toward the month of July the treacherous Anopheles mosquito drops its slimy larval veil, rises out of the marshes, and, flying around in search of a living for itself, sows death upon humanity.

Many centuries ago most of the inhabitants fled to the mountains, built their towns on some steep hills, and from these vantage points made dashes into the plain to work the fields and tend the cattle. Such a place was ancient Cori, founded by the Trojan Dardanos, with its city walls constructed of huge polygonal blocks and with its beautifully preserved temple of Hercules.

Ancient Towns of the Hills.
A little farther on rose Norma, on the very edge of a vertical cliff 600 feet high, as ancient as the city of Rome, if not more so. In olden times it was called Norba, and the cyclopean walls, formed out of huge, carefully rimmed boulders, are still a marvel to those who visit this not easily accessible place.

At the foot of Norma is the abandoned medieval town of Nifza, the

Pompeii of the Middle Ages, as Gregorovius called it, covered with ivy and brambles. This is one of the most poetic spots of the world.

A little farther along the range is Sermoneta, with the Thirteenth-century castle of the Caetani towering on a high mountain spur and dominating the vast plain of the Pontine marshes. Then follow Sezze, Piperno, and other towns.

These are the inhabited places today; but in olden times the whole land was densely populated and highly productive. Twenty-three towns are supposed to have existed where now one sees not the trace of a single building. The most famous of these cities which have disappeared was Pometia, conquered and sacked by the Roman king, Tarquinius Superbus, in the Sixth century before Christ.

The lagoons of the marshes have formed between the great prehistoric dune covered with oak forest and the more recent one thrown up by the sea. There is no natural communication between the lagoons and the sea. When these lakes swell, during the rainy season, the fishermen cut a small ditch across the dune, and the waters, rushing out to the sea, in a few hours widen to a broad river. The fish taste this lukewarm, brackish water and swim by the thousands and millions into the lagoon, where they are caught.

This locality is also a wonderful shooting resort. There the ducks come from the sea, seeking shelter and food in that maze of ponds and canals distributed throughout the dense growth of reeds.

How the Marshes Were Created.
At the time of the Roman republic, in the Fourth and Fifth centuries B. C., the Pontine region seems to have been free of waters, healthful and densely populated. Then, a little before 300 B. C., near the time the Appian road was built, something happened that has not been fully understood.

The natural outlet of the waters in the depression between the city of Terracina and Mount Circeo was obstructed, probably through some seismic movement; a raising of the ground a few feet was quite sufficient to stop the outflow of the waters; and the sea increased the obstruction by piling up sand dunes.

In this way the great plain of Pometia became hemmed in on all sides by higher lands and converted into a large basin, into which the waters naturally converged from everywhere, but from which they could not flow except through the narrow channels dug near Terracina to connect the marshes with the sea.

The ground became water-soaked. The great Appian road, not a long time after being built, began to sink in places and had to be raised by Trajan and other Roman emperors. During the Eighth century it went completely under water and the road from Rome to Naples had to be shifted to the foothills, passing near Nifza and Sermoneta. From that time to the present this waste but fertile region became the playground of unruly waters.

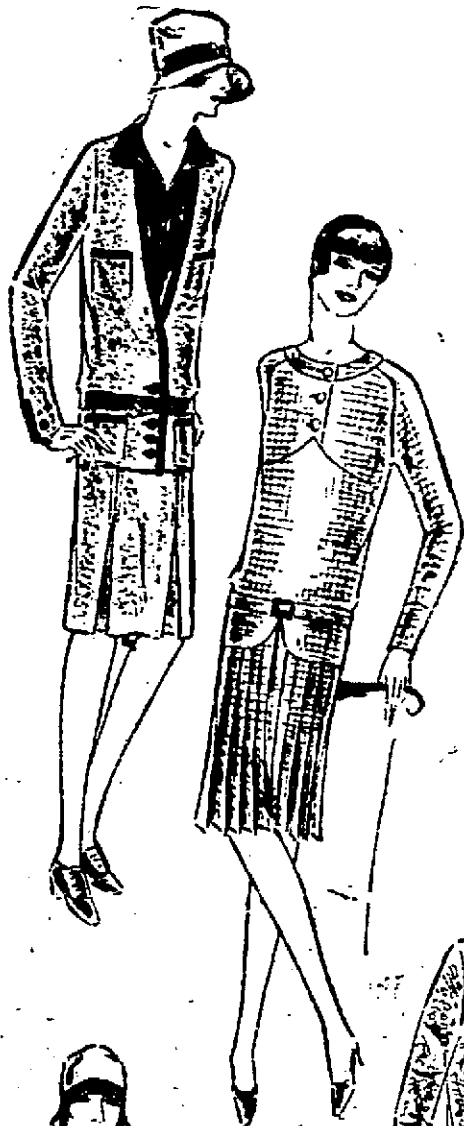

In winter over large tracts of land the yellow waters often rise as high as the tops of the fences; ducks, sea gulls and geese make it their home, diving in the shallow water for food. In spring the waters subside and the fields become covered with a luxuriant growth of grass and flowers, where the sheep and the long-horned cattle of the Roman Campagna find ideal pasturage.

Now Italy intends now to tackle the problem of draining the marshes that has baffled each succeeding generation for more than two thousand years. The government is approaching it with all the means and technical knowledge of modern times and will accomplish the work.

The ancient canal of Rio Martino will be opened again, the mountain streams will be placed under control by building a reservoir at the foot of the mountains, and large pumping stations are to be erected for draining the swampy land that is practically at sea level.

Pine Dresser Finally Got Back to America

There is no telling how much an antique piece may travel before it comes to rest in the hands of an appreciative collector or a museum. Recently a pine dresser was imported from England with some English furniture. The dresser stuck out like a sore thumb among the English pieces, and the dealer quickly spotted it. The wood, the hardware, the workmanship, the style, all proclaimed it American. A wealthy collector purchased it and then set out to find how the dresser had ever strayed from the shores of America. He discovered, after lengthy correspondence, that an American family had gone to England about 1875, taking considerable furniture with them, among which were several pieces which had been handed down from generation to generation, and the pine dresser was one of those pieces. Now it has an honored place in the collection, and may finally be returned to the descendants of the original owners, who are residing in a Middle Western city.—From the Antiquarian.

Dogs Lived Eight Days Without Food or Water

The tenacity of animal life is an interesting subject if it is tested by accident and not by design; and it has had a test by accident in Wales. Two dogs, a sheep-dog and a spaniel, which had succumbed to the temptation of rabbit hunting, were missed for nearly nine days. Then a little girl, hearing curious sounds underground in a lonely place, brought a party of rescuers to the spot, and the dogs were dug out of a rabbit hole from which they had been unable to extricate themselves. They must have been without food and water for eight and a half days, yet they seemed little the worse. Evidently the dog has lost, if it ever had, the instinct of burrowing toward the open air, which the underground animal possesses.

Many Tomato Varieties
The ground cherry, musk tomato, strawberry tomato or winter cherry

grows wild in the Mississippi valley and in other parts of the world and is a member of the tomato family. It is known as the blue tomato by truck gardeners. It grows in a small husk which if left on will preserve the tomato through the winter. Although this tiny vegetable, which is only a little larger than a small cherry, may be eaten raw, it is at its best when preserved. This is only one of the fifty-odd varieties of tomatoes. There are red tomatoes, white tomatoes, blue tomatoes and yellow tomatoes of every imaginable size and shape. Because of their shapes, there are tomatoes that are known as the pear tomato, the peach tomato, the cherry tomato, the plum tomato, the grape tomato and the currant tomato.

Water Power Long in Use

The oldest water power site in America, more than 100 years old, is on the Piscataqua river at South Berwick, Maine. It was established on the site of the present Burleigh blanket mill in 1629 by Ferdinando Gorges, who obtained a grant from the English crown giving him the right to settle and develop the territory from sea to sea lying between fortieth and forty-eighth parallels north latitude. The grant, however, required him to develop water power, and accordingly he constructed a log dam, erected a grist mill and sent the meal to England as proof that the terms of the charter were being lived up to. The water power site has been in continuous use ever since.

Had Odd Accomplishment

Earl Russell has this anecdote in his book, "My Life and Reminiscences": "My grandmother, Lady John Russell, was a great favorite with Queen Victoria throughout her life. Not alone, of course, because she had the peculiar and unusual capacity of wagging her ears like a dog. But this accomplishment intrigued the queen and she suddenly called on Lady John to show it off to an ambassador. My grandmother was so taken back that she lost for a long time the power to move either ear, and only ultimately regained her power to move one, which she occasionally did for my edification."

Presumptuous

A newly-rich man once invited Beau Brummell, the famous fop, to dinner, and asked him to name his own party. He accepted, and chose to the number of eleven, including himself. "That," said his host, "will make just an even number." "An even number?" queried the beau. "How is that?" "Your friends, ten; yourself and myself—twelve in all." "Good gosh!" said Brummell, affecting surprise. "You surely don't mean you are going to be one of the party!"

Hottest Spot on Earth

The latest official records show that the hottest spot on earth is at Azizia in northern Africa. It is on a plain almost equivalent to a desert. The thermometer at Azizia has gone to 136.4 degrees in the shade. The average temperature during the whole year is more than 70. Previously the hottest known spot was at Greenland ranch on the edge of Death valley, Calif. The highest temperature recorded there was 134 degrees.

Baseball's Origin

Baseball was known in various forms in the East for years before it received organized recognition, but its birthplace is a matter of dispute. Philadelphia takes the credit as far back as 1832, and New York claims that its Washington club, organized in 1843, was the first exponent of the actual game. Baseball as a national game really came into existence in 1858, with the formation of a National Association of Baseball Players, including the clubs of New York and vicinity.

Sound Traveled Far

The greatest distance at which thunder can be heard is 14 to 15 miles, but it is not generally heard at a greater distance than nine miles. In the World War, the shell and bomb explosions, and the noise of the 15-inch guns of the Germans and the allies in France were heard in the eastern part of England, at distances up to 150 miles.

NEW CHAMP AND WIFE

Benny Bass of Philadelphia, who beat Red Chapman for the featherweight title, is shown here with his wife in a very happy mood.

(International Newsphoto)

Vast Industry That Had Small Beginning

When James Lilly, an obscure inventor, sold a newfangled contrivance to the owner of a mining store in Coston, Ohio, in the early eighties, the transaction formed the foundation for a business whose sales today run far into the millions. When punched forcibly, the device registered on a strip of paper the amounts of cash sales. It could not have cost more than \$20 to make and the price was \$100. The mining store was steadily losing money, yet the Patterson brothers, who owned it, bought two of the devices, because the salesman recommended it as a

good thief-catcher. During the next year, without any apparent increase in turnover, the business made a profit of \$12,000. One of the brothers was the late John H. Patterson. After three years had passed, at a time when the contrivance seemed an assured failure, he bought control of the manufacturing business for \$5,500 and renamed it the National Cash Register company—Silas Bent in Century Magazine.

Canine Characteristics

Once in a while you meet a man who is like a dog. He would rather stand still and shiver than to get out and hustle and keep warm.—Cincinnati Enquirer.

Cannot Be Silent
A politician must often talk and act before he has thought and read. He may be ill-informed regarding a question, but speak he must.—Macaulay.

Financial and Commercial

New York, Sept. 19 (AP).—A drag on the market took place in today's stock market. Prices of many of the recent favorites broke 5 to 10 points in a wave of selling which rattled the general list and caused the first serious setback to the upward movement in more than a month. Industrials were the hardest hit but several of the so-called investment rails were carried down 2 to 3 points in the mad scramble of traders to get out of stocks.

The decline, which had been widely predicted as a result of the weakened technical position of the market, was stimulated by the marking up of the call money rate to four per cent, coincident with the selling of about \$15,000,000 in bonds. The stiffer money rates retarded the operations of banks to strengthen their reserve position and the character of the collateral behind outstanding brokers' loans. General Motors (old), which touched a new height at 277 1/2 on Saturday, sold down as low as 262 1/2 today. National Tea broke 12 points below Saturday's close, to 107 1/2. U. S. Steel common, General Motors (new), General Electric, Woodworth, U. S. Cast Iron Pipe, American Radiator and several others sold down 4 to nearly 7 points. Among the rails, Union Pacific, Atchafalaya and New York Central sold down 2 to 3 points.

Extensive liquidation developed through commission houses as a result of the advances to lighten up on long commitments. The further advance in stocks to within 1-1/2 of a cent partly suggested the possibility of early withdrawals of gold for shipment to England and a further stiffening of money rates.

Primary Election Occurs Tuesday

Enrolled Voters May Vote For Choice For Nominees in November Election and Delegates and Alternates to State Convention. Polls Open From Noon to 9 P. M. Tuesday will be Primary Day when enrolled voters may vote for their choice of the parties for nomination as candidates to be voted for at the annual election in November. Delegates and alternates to the state convention may also be voted for at this time. The polls will be open from noon until 9 o'clock in the evening.

Odds and Ends

A cottage prayer meeting will be held at the home of Mrs. Beadle, 45 East St. James street, Tuesday at 7:45 o'clock. The Rev. Mr. Kerr will be the leader.

A cottage prayer meeting will be held at the home of Mrs. Viola Conklin, No. 76 Grand street, on Tuesday evening at 7:45 o'clock. The Rev. John Anthony will be the leader. Everyone welcome.

A cottage prayer meeting will be held Tuesday evening at 7:45 o'clock at the home of Mrs. Millie, 175 Henry street. The Rev. George B. Mead will be the leader. Everyone welcome to attend.

Among the improvements that are being made at Greenkill Park is the installation of a large Hercules gasoline engine to be used in the pumping system. It was purchased of the Canfield Supply Company.

Local Death Record

Carl Frederick Spaney died September 13 at his home south of Marlborough after a long illness. Funeral services were held in New York city.

Mrs. William Donaldson, a former resident of Plutarch, died at her home at Hopewell Junction on September 14, aged 79 years. She is survived by her husband and one son, Fremont Donaldson.

George Cleveland of Newburgh, who was employed on the Velle fruit farm at Marlborough, was found dead in the camp provided for the summer workers on September 8. Death was due to heart trouble.

Edith Lockwood, wife of Ross K. Osterhout, died Sunday at her home in Stone Ridge. The funeral will be held from the Stone Ridge M. E. church on Wednesday afternoon at 2 o'clock standard time. Interment will take place at Fairview cemetery, Stone Ridge.

Thomas Thompson of Highland died September 15 at St. Francis Hospital, Poughkeepsie, following an attack of pneumonia. He was born at Plutarch fifty-five years ago and survived by two sisters, Mrs. Lizzie Callahan of Highland and Mrs. Charles Little of New Paltz, and a brother, Charles Thompson. Funeral services were held Sunday.

James B. Collins died at his home at Lattintown on September 15. He was born in Ireland but had spent a large part of his life in Milton. Besides his wife he is survived by four daughters, Mrs. Chris Miller, Miss Mary Collins and Miss Julia Collins of Milton, and a son, John, of Brooklyn.

Martin A. Kerzenbacher, son of Louise E. Manfred and Albert E. Kerzenbacher of No. 81 Nichols avenue, Brooklyn, died early Saturday morning at his summer home in Springtown, aged 16 years. The young man had been ill about nine months and came to Ulster county the last of June in an effort to regain health and strength. Undertaker Ernest A. Kelly took charge of the remains and they were taken to Brooklyn where funeral services will be held Tuesday with interment in Mount Olivet cemetery.

Henrietta Beatty, wife of Anthony DeCicco, died Sunday at her home, 148 West Pierpont street. She had a host of friends who will be much grieved to learn of her demise. Besides her husband she is survived by three children, Mary, Rose and John C. DeCicco; her parents, Isaac and Mathilda Myers Beatty, and one brother, John of this city. Funeral Wednesday at 9:45 from her late residence and at 9:30 at St. Mary's church where a requiem Mass will be offered for the repose of her soul. Interment in the family plot, St. Mary's cemetery.

Joseph Vaughn died at his home in High Falls on Sunday. He was a highly respected resident of that village where he had resided all his life. Mr. Vaughn was the husband of Katherine Harrigan and is survived by his daughter, Mrs. Charles Springer of Poughkeepsie, and son, John Vaughn of High Falls. Funeral services from the late residence Wednesday morning at 9:30 o'clock and at St. Peter's church, Rosendale, at 10 o'clock where a high Mass of requiem will be celebrated for the repose of his soul. Interment in the family plot in St. Peter's cemetery, Rosendale.

Irving B. Wood, Jr., died in this city Sunday morning following a protracted illness. He was born in this city and was the son of Irving B. Wood, the well known musician and Matilda Bower Wood. Besides his parents he leaves one brother, James Wood, who is a member of the West Point Band. He was 19 years of age and by his sterling character and strong personality had endeared himself to a large circle of friends. The funeral will be held from his late home, No. 22 Howe street, Wednesday morning at 9 o'clock and at St. Peter's church where a requiem Mass will be offered for the repose of his soul.

Attack on the Reformers
For is the cheapest batch that has been discovered yet and the easiest to take.—Josh Billings.

One Derby Flier Delayed

Newfoundland, N. J., Sept. 19 (AP).—Vernie L. Roberts, of Fargo, N. D., an entrant in the national air derby, was forced to land in a meadow near the railroad station today on account of poor visibility and compass trouble. He took off again after two hours had elapsed.

TWO KIWANIS MYSTERIES MAUNT THE FREEMAN OFFICE.

In connection with the Kiwanis pages in The Freeman on Saturday two mysteries have developed. One is what allied the head of the man who wrote the copy for the box story on the first page, in which it was gravely stated that the Kiwanis Club owned 14 planes in the paper, "from page 10 to page 14, inclusive," a mechanical and mathematical impossibility. It should have read "from page 11 to page 24, inclusive". The other and greater mystery is: What became of the quarter page advertisement of the Kingston Real Estate Board? Composers remember setting the advertisement, proof readers remember reading it, the makeup man remembers handling it, and asking a question about it, the editor remembers revising the proof, and answering the makeup man's question, at which time he saw the type, and the proof and copy are on file. But the advertisement never got in the paper and, furthermore, the type has disappeared, nobody knows how, when, why or where. It is evident that the Real Estate Board, the Kiwanis Club or The Freeman has, the three together, some special and personal and quite muscular demon who wanted the type away by the exercise of supernatural powers, as there seems to be no natural explanation, every one of the 57 natural ways in which the thing could have happened having been investigated. N. B. Gross is the president of the Real Estate Board and can tell anyone interested much more about it than could be stated in an advertisement.

THE JOINERS.

News of Interest to Members of Fraternal Societies.

This evening Roundout Lodge No. 343, F. & A. M., will confer the first degree on a class of candidates.

Kingston Council, No. 124, Sons and Daughters of Liberty, will hold its regular monthly meeting at Mechanics Hall, 14 Henry street, tonight at 8 o'clock. As business of importance will be transacted it is requested that every member be present.

Six Enter Non-Stop Race

New York, Sept. 19 (AP).—Entry of six planes in the nonstop classification for the New York-Spokane air derby was announced today by officials in charge of the flight. These are scheduled to take off Wednesday afternoon.

Only two of the planes had arrived at Roosevelt Field. These were the "Roval Windsor" with C. A. "Duke" Schiller as pilot, and a Stinson monoplane piloted by "Eddie" Stinson.

Officials of the flight said the non-stop race will be fought between these two even if none of the other entries start. It had been announced previously that the classification would be eliminated unless five qualified planes were ready to start.

About the Folks

Edward Hoffman of the shipping department of the Canfield Supply Company has resumed his duties after his vacation period.

Dr. and Mrs. J. P. Reading are spending their vacation at Mohonk Lake. Dr. Reading will resume his practice Monday, September 25.

Mrs. Leslie Flowers and daughter, Laura, of 6 Crown street have returned from a week's vacation at Mr. and Mrs. James Ormand's at Bernardsville, N. J., formerly of this city.

Mr. and Mrs. Finley J. Shepard and the Misses Olivia and Meelin Shepard, who have been stopping at their summer home, Roxbury, Delaware county, have returned to New York.

Jeffers Pennington of Ulster Park and Millard Du Bois of this city, both Kingston High School graduates and now in their Sophomore years at Middlebury College, Vermont, have left for the year's college work.

Mr. and Mrs. A. K. Clear of Providence, R. I., and George Rose of Washington, D. C., formerly of Oakland, Cal., who have been guests of Mr. and Mrs. Myron Styles, 66 Liberty street, have returned to their homes. Mr. Rose is one of the 49 gold seekers in California.

WILL REGULATE OUTPUT OF INDUSTRIAL ALCOHOL

Washington, Sept. 19 (AP).—Rigid regulations to control the amount of industrial alcohol each manufacturer in the United States may produce, as a step to "cut off the lawless fringe" in this field will be issued soon by Prohibition Commissioner Doran.

Close Observer

"A man's character is sometimes read in his wife's face," truly remarks the Florence Bulletin.

Susan B. Anthony Fined
Susan B. Anthony was the first American suffragist to be arrested for her principles. In order to test the Fourteenth and Fifteenth amendments she cast ballots at the state and congressional elections at Rochester in 1872. She was indicted for illegal voting and a fine imposed. She defiantly refused to pay the fine, but was never jailed.

Tree's Products Valuable
From the "blackboy" tree of Australia a new company is producing tars that are free from harmful acids, tarpsaulin dressings, rope tar and snail tar, lacquers, paint, stains, pitches, phenol, benzol, alcohol, kerosene, and formalin is planned.

Protect School Books
Cover the children's schoolbooks with either stiff paper or cloth so they will last the year and be in condition for the next in the family who will need to use them.

Society Notes

Mrs. Mary Healey of 29 New York avenue recently entertained at a home a number of friends including Mrs. T. Coughlin, Mrs. E. Arnold, Mrs. A. Entrott, Mrs. T. Keane, Mrs. Dugan, Miss Elizabeth Healey, Mrs. M. Norton and Mrs. Hanson and son, Albert.

Gildersleeve-Cable.
Mrs. Elizabeth Sism Cable of New York city and Ferdinand A. Cable, sleeve of this city were united in marriage at Marble Collegiate Church, New York city, on Tuesday, September 15.

Federation Executive Meeting.
The first fall meeting of the executive committee of the Kingston Federation of Women's Clubs will be held on Thursday afternoon at 3:30 o'clock at the Kingston City Library. As plans for the fall and winter activities of the Federation will be discussed and formulated at this meeting, a full attendance of club delegates as well as presidents is urged.

CHAMPION PROMOTER.

Regardless of who wins the heavyweight title bout at Chicago on Thursday, Tex Rickard's title as "champion promoter" is secure. In addition to promoting Thursday's battle Rickard has promoted practically all of the important title battles of the last decade.

CENTRAL HUDSON COOKERY CLASSES OPEN THIS WEEK

Kingston women will welcome the initiation of the fall series of cookery classes by the home service department of the Central-Hudson Gas & Electric Corporation on Wednesday evening at 7:30 and on Thursday afternoon at 2:30.

At these meetings, which are open to all women of the community without charge, Miss Nellie Davenport, Kingston director of home service, will demonstrate "Foods for Winter Use." Oven canning will be included in this subject, also the preparation of vegetables for use when fresh ones are unobtainable, and pickle and marmalade recipes will be demonstrated—green tomato pickle, corn relish, spiced currants, and others. Recipe sheets are distributed to those attending each meeting.

For twelve weeks, lasting through December 12, this series will be continued, including a large variety of subjects, and the classes are sure to prove of real interest and value. They have been arranged at different hours on Wednesday and Thursday to allow attendance at whichever is most convenient. Classes will be held as usual in the home service auditorium at 5 Field Court.

Everyone is welcome—and the housewife will find these classes well deserving of a place in her "date book."

McADOO DOESN'T CHOOSE TO RUN

William Gibbs McAdoo, former secretary of the treasury, and son-in-law of late Woodrow Wilson, has wiped his name off slate of Democratic presidential nominees. (International Newsweek)

MORE RETURNS FROM RECENT IRISH ELECTIONS

Dublin, Sept. 19 (AP).—Election returns today brought the strength of the government in the new Dail Eireann to 62 seats, as against 56 for the opposition parties.

The final result of the neck and neck race between President Cosgrave and the de Valera supporters will not, it is thought, show any great difference in this proportion.

Some observers calculate that the government's majority will not exceed four or five seats, while in other quarters a small majority for the De Valerites is believed possible. All the small parties lost severely, and where the government made gains it was at the expense of the independents and farmers who supported President Cosgrave in the last Dail.

It is clear that the election leaves things pretty much as before, and what will follow the remarkable results of the polling, puzzles the political prophets.

Sues for One Million.
Chicago, Sept. 19 (AP).—Suit for \$1,000,000 damages and \$100,000 attorneys' fees was filed in United States district court here today by former Senator J. Hamilton Lewis on behalf of the Baltimore Butterine Company, naming as defendants Armour and Company, Swift and Company, Wilson and Company and other concerns and persons throughout the country.

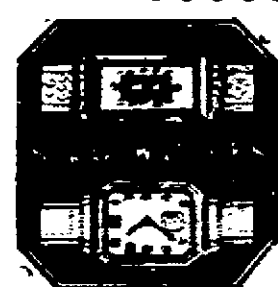

POLICE SUBSTANTIATE STORY OF MRS. SCHULTZ

Allentown, Pa., Sept. 19 (AP).—Police said today inquiry had partially substantiated the story told by Mrs. Carl Schultz of the fatal shooting of her husband, from whom she had been estranged, as they sat in an automobile Saturday night trying to effect a reconciliation.

Mrs. Schultz is held as a material witness. She told the authorities that they had met here Saturday night and had driven up the Lehigh river to a secluded portion of Allentown's eastern suburbs. While they were seated in the motor car, she said, a man approached the car through the tall grass and fired three shots at her husband, one of which hit him in the left eye.

Police said that their investigation had led them to believe the shooting was done by a man who recently has been terrorizing the neighbors.

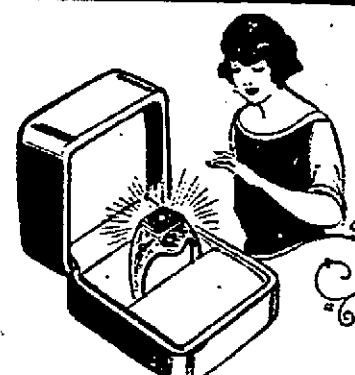

BOY DIES AFTER FALL FROM BICYCLE
Binghamton, N. Y., Sept. 19 (AP).—Theodore Schild, 15, of Johnson City, walked into his home Saturday afternoon, said he had fallen from his bicycle and was sleepy. He lapsed into unconsciousness and died yesterday afternoon. Surgeons say a fractured skull caused death. The cause of the accident remains a mystery.
